"EISENHOWER MIDDLE EAST DOCTRINE" INVOKING EAST-WEST "HOT" WORLD WAR

"Intervention" by United States armed forces for "preservation" of Zionist puppet "state"
in Palestine invites defeat for United States by Soviet Union in East-West "hot" World War

**NON-CHRISTIAN ASIAN-AFRICAN 80% OF WORLD'S TOTAL POPULATION
SUPPORT PALESTINIAN ARAB EXPELLEES RIGHT TO RETURN TO HOMES**

BY BENJAMIN H. FREEDMAN
FOUNDER 1946, LEAGUE FOR PEACE WITH JUSTICE IN PALESTINE

The Eisenhower Middle East Doctrine has created for this nation inescapable and unavoidable obligation to employ United States armed forces in the Middle East for "the preservation of the independence and integrity" of the Zionist puppet "state" in Palestine. The intervention of United States armed forces in the Middle East for that purpose now will without question or doubt trigger the dreaded all-out and full-scale East-West "hot" World War from all the indications at present available.

To be forewarned is to be forearmed. The nation has every right to be forewarned that the day upon which United States armed forces intervene in the Middle East for "the preservation of the independence and integrity" of the Zionist puppet "state" in Palestine will also be the day that will go down in history as the first day of the dreaded all-out and full-scale East-West "hot" World War from all the indications at present available. It will require greater wisdom than the nation now displays to prevent employment of United States armed forces in the Middle East under the compulsory obligation of the Eisenhower Middle East Doctrine when President Eisenhower exercises his prerogative to do so upon request of the Zionist puppet "state" of the Zionist spurious "nation" now in Palestine.

On March 9, 1957 President Eisenhower affixed his signature to the Joint Resolution for the Middle East approved a few days earlier by majority in both houses of the Congress. President Eisenhower's signature upon that Joint Resolution on the Middle East by the Congress gives to the Eisenhower Middle East Doctrine the full force and effect of all legislation enacted into law by the Congress. The sponsors behind the Eisenhower Middle East Doctrine have thus finally achieved the purpose they attempted in vain to accomplish in other ways for many, many years.

The sponsors behind the Eisenhower Middle East Doctrine appear satisfied that the language of the Eisenhower Middle East Doctrine now conceals rather than reveals its real purpose. It was planned that way. It would have been quite impossible for the Congress to enact into law a Joint Resolution on the Middle East which clearly expressed in simple language the primary purpose concealed in the ambiguous and misleading language of the Eisenhower Middle East Doctrine in its present form.

Hydrogen-bombs delivered by intercontinental ballistic missiles will be introduced into use in the next world-war as the most destructive of weapons. ~~During this nation's best qualified authorities on this subject, the New York Times as recently as March 12, 1957 informed its readers that "a surprise hydrogen-bomb attack may kill 98% of the population of big cities."~~ Other equally reliable authorities are correspondingly pessimistic regarding the prospects of a surprise hydrogen-bomb attack upon the big cities. There is no effective defense against hydrogen-bomb surprise attacks upon big cities by intercontinental ballistic missiles, a fleet of intercontinental strategic jet-bombers or a fleet of submarines capable of delivering hydrogen-bomb long-range guided-missiles on inland and coastal cities with their prior detection and destruction impossible.

The death, destruction and devastation of a nation-wide hydrogen-bomb surprise attack upon the big cities of the United States are beyond the grasp of human comprehension. The magnitude of such a catastrophe paralyzes the imagination. Massive retaliation of any kind will offer poor consolation for surviving victims, if any. There is no suitable or adequate compensation for the staggering loss of lives and great destruction of property. Under these circumstances, the dreaded all-out and full-scale East-West "hot" World War must be zealously quarantined, not actively-incubated, discouraged in every way, not encouraged by indifference to the danger of its own destruction now facing this nation for the first time.

The Eisenhower Middle East Doctrine must not be confused with a declaration of a new foreign policy for the United States in the Middle East. The Eisenhower Middle East Doctrine presents a danger to the life and liberty of every man, woman and child in the United States. It is the "law of the land" in the United States today. It has the force and

effect of every law in the United States enacted by the Congress dealing with crimes of every description. It is now a crime to interfere with or obstruct the operation of the Eisenhower Middle East Doctrine by deed or by word of mouth as with any other Federal, State or local law today.

The Eisenhower Middle East Doctrine is unquestionably transforming the Middle East area of the world into the incubator for hatching out the dreaded all-out and full-scale East-West "hot" World War. The brood of that folly will prove the most catastrophic calamity in all the recorded history of mankind. That calamity looms upon the horizons in the Middle East in the foreseeable future. The nation must be fully alerted to the consequences of ignorance and indifference to this threatened danger. Forewarned is forearmed, and it is much later now than this nation thinks.

It is an incontestable fact that the sponsors behind the Eisenhower Middle East Doctrine exercise a dictatorial and totalitarian control in the United States over the media of mass-communications for shaping public opinion, the newspapers, radio, television, motion pictures and magazines among others. The sponsors behind the Eisenhower Middle East Doctrine are thus able to conceal important information from the nation and to brainwash the nation with the most extensive, intensive and expensive campaigns ever conducted in the history of public relations and propaganda. The nation is brainwashed with fiction and the facts are withheld. The public are wretchedly the captives of this situation and are not now in any position to do anything about it at the moment.

The impending and imminent threat to the peace of the world in the Middle East is entirely due to one single fact. That one simple fact is the imperishable resolve of 1,000,000 Palestinian Arab expellees to return to their lawful homes in their ancient homeland, come hell or highwater. They have never recognized the right of anyone on earth to deprive them of their lawful homes in their ancient homeland. They have not and will not recognize the right of anyone on earth to deny them their right to return immediately to their homes in their ancient homeland of Palestine.

The non-Christian Asian-African 80% of the world's total population, four out of every five human beings on the face of this earth, recognizes this God-given and inalienable right of these 1,000,000 Palestinian Arab expellees. The Christian European-Western Hemisphere 20% of the world's total population does not concede this right to these 1,000,000 Palestinian Arab expellees. That conflicting attitude of the non-Christian and Christian nations on this question is responsible for the impending and imminent threat to the peace of the world.

In May 1943, without any cause or justification whatever, 1,000,000 harmless and helpless, innocent Palestinian Arab men, women and children were expelled by force and violence from their lawful homes in their ancient homeland by the armed aggression of the organized military forces of 650,000 Zionist revolutionists transplanted into Palestine for that purpose by the international Zionist conspirators between the years 1920 and 1943. At that time in 1943, Palestine was recognized by the nations of the world as the autonomous state of the Palestinian Arabs pursuant to the recognition of Palestine in 1920 by the League of Nations and all countries of the world confirming Palestinian Arab sovereignty.

The God-given and inalienable inherent rights of these 1,000,000 Palestinian Arab expellees are in total eclipse during the international conferences so frequently called to examine the question of "free passage through the Suez Canal," "innocent passage through the Gulf of Aquaba" and "status" of the Gaza "strip." They are held it seems only to validate criminal acts of the Zionist armed insurrectionists who "proclaimed" the loot of their 1943-revolution in Palestine their Zionist puppet "state." The indications at this time emphasize previous predictions that no permanent or peaceful solution of any Middle East problem is possible until and unless the 1,000,000 Palestinian Arab expellees again occupy their lawful homes in their ancient homeland. That question should receive priority in every international conference on Middle East questions. Its solution will greatly simplify the solution of all other questions to the benefit of all concerned, including the international Zionist conspirators.

Fact For Fact

It is now neither unreasonable nor unrealistic to anticipate that the 1,000,000 Palestinian Arab expellees will one day soon resort to the measures necessary to facilitate the return of their stolen homes to them. It is also neither unreasonable nor unrealistic to anticipate that the Palestinian Arab expellees may find it necessary to resort to the use of methods to accomplish that result similar or identical to the methods adopted in 1943 by the organized armed forces of the 650,000 Zionist revolutionists in Palestine when they literally stole their homes from them like bandits.

The dreaded all-out and full-scale East-West "hot" World War will officially commence on the day United States armed forces are employed in the Middle East to prevent the return of the 1,000,000 Palestinian expellees to their lawful homes in their ancient homeland, a homeland fertilized by their ancestors for over 1700 years with their sweat and blood. The 1,000,000 Palestinian Arab expellees are at this time and have always been the lawful owners of 94.6% of the area "proclaimed" by the 650,000 Zionist armed insurrectionists in 1943 the present Zionist puppet "state" in Palestine. The 94.6% of the area of the present Zionist puppet "state" in Palestine, owned by the 1,000,000 Palestinian Arab expellees, was valued at Five Billion Six-hundred Million Dollars (\$5,600,000,000.00) at the time it was stolen from them, according to a survey made by a commission of United Nations experts sent to Palestine for that purpose.

The 1,000,000 Palestinian Arab expellees have officially been given assurances of future support by the non-Christian Asian-African 80% of the world's total population. They have been assured that this support will closely follow the pattern of the support supplied by the Christian European-Western Hemisphere 20% of the world's total population to the international Zionist conspirators responsible for the rape of Palestine in 1943, in which the United States played the leading role. With the men, money and material forthcoming under this arrangement the 1,000,000 Palestinian Arab expellees will have the means to take possession of their lawful homes in their ancient homeland in the same manner but in reverse by which they lost them to the international Zionist conspirators as a result of the considerable material, money and men supplied to them gratuitously by the Christian European-Western Hemisphere 20% of the world's population contrary to all canons of Christian dogma and doctrine.

It is neither unreasonable nor unrealistic to anticipate that the Soviet Union will at that time display the same interest in the future developments in the Middle East that the Soviet Union recently displayed in developments in Egypt in the month of November. In November 1956, unprovoked and unjustified armed aggression against the territory and sovereignty of Egypt by Great Britain and France resulted in the prompt delivery of ultimatums to them by the Soviet Union. Without cause or justification under international law or the United Nations Charter, Great Britain and France reduced Port Said to a heap of rubble by ruthless and reckless bombardment from the air, with great civilian loss of life, after bombardment of other cities in Egypt. Port Said is an Egyptian city of almost 200,000 population situated at the Mediterranean entrance to the Suez Canal, and the base of British army of occupation from 1872 to 1954.

The Soviet Union by-passed United Nations in delivering the ultimatums to Great Britain and France as Great Britain and France had by-passed United Nations in their armed aggression against Egypt. The Soviet Union ultimatums to Great Britain and France requested the complete and immediate withdrawal of British and French armed forces from Egypt. Great Britain and France were notified that failure on their part to comply would result in the bombardment of London and Paris with highly destructive guided-missiles. Upon verification of this fact Great Britain and France did not hesitate long to comply with the ultimatums of the Soviet Union. Great Britain and France wished to spare London and Paris the fate of Port Said. It was not "world opinion" which caused two of the great military powers to suddenly abandon their well-prepared campaign for the conquest of Egypt. Without emphasizing the fact, it is obvious Great Britain and France were saving London and Paris.

The Eisenhower Middle East Doctrine supplies United States armed forces with no more authority under either international law or the United Nations Charter, to intervene in the Middle East for "the preservation of the independence and integrity" of the Zionist puppet "state" in Palestine than Great Britain and France enjoyed under international law or the Charter of United Nations to intervene with their armed forces in Egypt in 1956 to vent their spleen because Egypt nationalized their Suez Canal.

It is neither reasonable nor realistic to anticipate that the Soviet Union will very long remain a disinterested spectator on the side lines when United States armed forces intervene in the Middle East to prevent the return of these 1,000,000 Palestinian Arabs to their own homes in their ancient homeland in Palestine. Nor is it reasonable or realistic to anticipate that the Soviet Union will for very long remain an onlooker passively watching developments in the Middle East when that takes place in an area of the world also important today to the Soviet Union.

Nor does the inevitability of the unpredictable preclude the possibility of war between the United States and the Soviet Union as a result of miscalculation by either country, as much as each earnestly desires to avoid armed conflict with the other, if possible to do so. World War I and World War II resulted from miscalculations by the interested parties and it can happen again now if greater care is not exercised by them all.

The sponsors behind the Eisenhower Middle East Doctrine already are celebrating their victory resulting from their excellent choice of the words in the language of the Eisenhower Middle East Doctrine as finally enacted into the "law of the land" by the Congress. The language of the Eisenhower Middle East Doctrine completely hides from the nation the primary purpose for which it was enacted. As an example, the Eisenhower Middle East Doctrine makes veiled reference to the Zionist puppet "state" in Palestine as one of the "nations of the Middle East" by implication, inference and innuendo as though it had its historic roots in that area.

The Zionist puppet "state" in Palestine is not a "nation" according to either international law, intelligent use, the Oxford English Dictionary, Webster's Universal Dictionary and every other universally accepted standard source of reference on the subject. Despite every universally accepted standard source of reference on the subject to the contrary, the Eisenhower Middle East Doctrine makes reference to the Zionist puppet "state" in Palestine as one of the "nations of the Middle East" by implication, inference and innuendo as if that by itself would make it that.

Any reference to the Zionist puppet "state" in Palestine as one of the "nations of the Middle East" is completely contrary to fact and completely untrue in the light of unbiased and unprejudiced analysis of advanced research. The Zionist puppet "state" in Palestine is a "nation" only in the imaginations of Zionist propagandists and of their victims susceptible to and subject to their brainwashing ever since 1943 in the

media for mass-communications for shaping public opinion controlled now in the United States by the international Zionist conspirators there.

Every universally accepted standard source of reference on the subject enumerates the identical seven requirements necessary to qualify an aggregate of persons as a "nation." The seven requirements enumerated are (1) a record of long association, (2) a record of common ethnic origin, (3) a record of speaking the same language, (4) a record of the same history, (5) a record as a separate political state, (6) a record as a distinct people, and (7) a record of occupying a definite territory. Prior to transplanting them into Palestine from all corners of the world, the 1,800,000 Zionists in Palestine in 1957 could absolutely never satisfy any of the seven requirements necessary to qualify them collectively as a "nation" in the honest opinions of notable authorities on that subject.

The only characteristic that all the 1,800,000 Zionists transplanted into Palestine have in common with each other, or with other Zionists, is their religious faith. Under no interpretation of "nation" are members of the same religious faith, scattered throughout the world and of many races and nationalities, regarded as a "nation" solely by reason of that fact. It is the height of folly to regard all Christians, scattered throughout the world and of many races and nationalities, as the Christian "nation" solely by reason of the fact that they all profess the Christian faith.

It would be the height of folly for the same reason to regard all Catholics scattered throughout the world and of many races and nationalities, as the Catholic "nation." The same logic applies with equal force to Episcopalians, Lutherans, Methodists, Presbyterians, Baptists and all other 237 Protestant denominations, and to Moslems, Hindus, Buddhists, Brahmans and other religious faiths. Zionists of many races and nationalities were scattered throughout the world before 1,800,000 were chosen to be transplanted into Palestine. Zionists throughout the world were never a "nation" in any sense of the word solely because they allegedly professed the same religious belief, nor does that fact make them a "nation" today in Palestine, in spite of their many spurious claims to the contrary.

It is beyond comprehension that the Christian European-Western Hemisphere 20% of the world's total population acknowledge and accept the Zionist puppet "state" in Palestine as a "nation" in any sense of the word. The non-Christian Asian-African 80% of the world's total population does not concede that 1,800,000 Zionists transplanted into Palestine from all corners of the world, including Asia and Africa, are a "nation" in the sense of the universally accepted standard sources of reference on the subject. The international Zionist conspirators cannot deceive them at all.

The governments of the non-Christian Asian-African 80% of the world's total population were compelled to extend political and economic recognition to the Zionist puppet "state" in Palestine. The governments of the Christian European-Western Hemisphere 20% of the world's total population were in the position to compel them to do so for obvious reasons by the force of circumstances for the time being beyond their power to modify. The present international imbalance is a regrettable fact which fortunately will not endure very much longer judging by the evidence of the Asian-African economic emancipation to follow political liberation.

In April 1943 fighting forces of the 650,000 transplanted Zionists in Palestine slaughtered every Palestinian Arab man, woman and child in Deir Yassin, a suburban city near Jerusalem, to give the 1,800,000 defenseless Palestinian Arabs a true sample of what they could expect after May 15, 1948 if they offered resistance to the 650,000 transplanted Zionists after the departure for England of the High Commissioner for Palestine with the last remaining of 100,000 British occupation troops. According to the International Red Cross, the butchered bodies of the victims were thrown into the water wells of the city. In April 1943 the fighting force of the 650,000 transplanted Zionists demonstrated to 1,800,000 Palestinian Arabs many other bloody demonstrations of what they could then expect if they offered any resistance to the Zionist aggressors after May 15, 1948.

In May 1948 the fighting force of Zionists transplanted into Palestine proceeded to drive 1,000,000 unarmed, helpless and harmless, innocent Palestinian Arab men, women and children out of 70% of the territory of Palestine, into the deserts of Syria, Jordan, Saudi Arabia, Iraq, Lebanon and Egypt, where they are now, existing in destitution in filthy camps fewer than 10 years on 70 a day for food contributed by United Nations, including the nations responsible for the tragedy. Daily many die there of hunger, while 1,800,000 transplanted Zionists live in luxury in their homes and now grow much fatter, fresher and fiercer there with each passing day.

The international Zionist conspirators justify their puppet "state" in 70% of Palestine on the grounds that (1) all Palestine was their "Promised Land" for 3000 years, (2) all Palestine had been the "homeland" of the "Chosen People" from time immemorial, (3) Lord Balfour had "given" all Palestine to them by a letter written to Lord Rothschild, (4) the defunct League of Nations somehow "gave" all Palestine to them, (5) United Nations "created" their puppet "state" by a "recommendation" to "partition" Palestine and gratuitously grant them 50% of all Palestine, and (6) Zionists throughout the world for 3000 years have all been "praying" to "return" to Palestine. All six are still believed by many foolish Christians!

Without exceptions or qualifications of any description for any reason, every claim advanced by international Zionist conspirators inside or outside the Zionist puppet "state" of the Zionist spurious nation in Palestine have been proven completely false, fictitious or fraudulent and in many cases all three. The international Zionist conspirators inside and outside the Zionist puppet "state" of the Zionist spurious nation in 70% of Palestine admit, and in many instances boast, that their acquisition of 70% of Palestine is solely the result of Zionist armed aggression without any legitimate historic, religious or racial rights to possession by them.

The dictatorial and totalitarian control exercised over the media of mass-communications for shaping public opinion in the United States by the international Zionist conspirators made it possible for them to brainwash the nation that these 1,000,000 Palestinian Arabs expelled from their homes into disgraceful destitution in filthy "camps" in Syria, Jordan, Saudi Arabia, Iraq, Lebanon and Egypt are "refugees." The 1,000,000 Palestinian Arabs in these camps are "expellees" and not "refugees." This nation is brainwashed to regard these 1,000,000 Palestinian Arabs as "refugees" instead of "expellees" for a sinister reason, as will be explained.

The Oxford English Dictionary and every other universally accepted standard source of reference on the subject defines "expel" generally: "to drive out or thrust out, to eject by force," and specifically: "when the object a person, to eject, dislodge by force from a position; to banish from, compel to quit, a place or country." The Oxford English Dictionary and every other universally accepted standard source of reference on the subject defines "expellee" as: "one who has been expelled." In view of these definitions and what occurred in Palestine in May 1948 there can

Fact For Fact

be no doubt that the 1,000,000 Palestinian Arabs in question here are "expellees" and not "refugees" under circumstances the facts clearly prove.

The Oxford English Dictionary and every other universally accepted standard source of reference on the subject define "refugee" specifically: "one who, owing to religious persecution or political troubles, seeks refuge in a foreign country; originally applied to French Huguenots who came to England after the revocation of the Edict of Nantes in 1685." In view of this definition and every other universally accepted standard source of reference on the subject, the only "refugees" in the Middle East are the 1,800,000 transplanted Zionists in Palestine who sought "refuge" there.

The 1,800,000 Zionists transplanted into Palestine left their homes in their ancient homelands "owing to religious persecution and political troubles" in order to "seek refuge in a foreign country." Ordinarily "refugees" do not "seek refuge in a foreign country" and then resort to conquest of the foreign country in which they are seeking refuge from "religious persecution and political troubles" in their homelands, as the Zionist "refugees" transplanted into Palestine actually did there in 1948.

In any event, the 1,000,000 expelled Palestinian Arabs in question cannot be regarded as "refugees." Firstly, they did not voluntarily leave their homes in their ancient homeland "owing to religious persecution or political troubles." Such things did not exist in Palestine until the arrival of the transplanted Zionists. Secondly, they did not voluntarily leave their homes in their ancient homeland to "seek refuge in a foreign land." The description "refugees" only fits the transplanted Zionists in Palestine. The 1,000,000 Palestinian Arabs in question are "expellees" beyond any possible doubt. By the same token the transplanted Zionists must be "refugees."

There is "a method in the madness" of the international Zionist conspirators in brainwashing the nation that the 1,000,000 Palestinian Arab "expellees" are "refugees." It is a fact "refugees" seek to "resettle," for the reasons stated, "in a foreign country." It is also a fact "expellees" seek to "return" to their homes in their ancient homeland from which they have been "driven out," "thrust out," "ejected by force," "dislodged by force," and "compelled to quit." The 1,000,000 Palestinian Arabs in question are "expellees" awaiting "return" to their homes in their ancient homeland.

The 1,000,000 Palestinian Arabs in question are not "refugees" waiting to be "resettled" at the convenience of the Christian European-Western Hemisphere 20% of the world's total population somewhere in the world "in a foreign country." The dictatorial and totalitarian control exercised over the media for mass-communications in the United States by the international Zionist conspirators will never succeed in transforming the 1,000,000 Palestinian Arabs in question into "refugees" in the minds of the non-Christian Asian-African 80% of the world's total population. To them the 1,000,000 Palestinian Arabs in question will always remain "expellees."

The sponsors behind the Eisenhower Middle East Doctrine for a very obvious reason included in the Joint Resolution enacted into law on March 9, 1957 the very ambiguous, vague, obscure and equivocal term: "armed aggression from any country controlled by international communism." There is not one person in all this world today who can intelligently offer an explanation of the implication, inference or innuendo explicit or implicit in the term "armed aggression from any country controlled by international communism." There is not one person in all this world today who can rationalize a policy or a course of action with the term: "armed aggression from any country controlled by international communism."

The sponsors behind the Eisenhower Middle East Doctrine evidently "planned it that way" for their purpose and with a good reason in mind. When the first opportunity or occasion to do so presents itself, the sponsors behind the Eisenhower Middle East Doctrine will interpret "armed aggression from any country controlled by international communism" to mean intervention by United States armed forces in the Middle East for "the preservation of the independence and integrity" of the Zionist puppet "state" in Palestine. The sponsors behind the Eisenhower Middle East Doctrine have at all times covertly planned to interpret "armed aggression from any country controlled by international communism" as the future attempts by Palestinian Arab "commandos" or "suicide squads" to cross the border into Palestine from camps in which 1,000,000 Palestinian Arabs are living in exile in Egypt, Syria, Jordan, Iraq, Lebanon and Saudi Arabia waiting to recover their homes from those who stole them.

It is a universally accepted fact that "aggression" accompanied by the use of weapons becomes "armed aggression." It is also a universally accepted fact that "aggression" or "armed aggression" may be the act of one person or more than one person. The number partaking in the "aggression" or "armed aggression" varies from one person to the entire armies, navies and air forces collectively of the world's leading military power.

Both as a military term and as a non-military expression "aggression" and "armed aggression" are used in two ways firstly, "overt aggression" and "overt armed aggression" and secondly, "covert aggression" and "covert armed aggression." The term "overt armed aggression" describes instances of "armed aggression" which are open to the view of all the world, are made public, are uncoincidental and are quite apparent without further inquiry or investigation. The October 29, 1956 attack upon Egypt by the army, navy and air force of the Zionist puppet "state" in Palestine is an instance of "overt armed aggression." The November attack upon Egypt is another instance of "overt armed aggression." Under international law "overt armed aggression" is an official act by the government of a sovereign state and it becomes "overt armed aggression" internationally when "armed aggression" is open to the view of the world, is made public, is uncoincidental and is quite apparent without need for further inquiry or investigation.

There are two universally recognized types of "armed aggression." They are "overt armed aggression" and "covert armed aggression." They are the opposites of each other in an important respect. "Overt armed aggression" is open to the view of the world, is made public, is uncoincidental and is quite apparent without further inquiry or investigation. "Covert armed aggression" on the other hand is secret, concealed, hidden, obscure, masked, disguised, camouflaged, stealthy and it is never open or exposed.

That original draft of his Joint Resolution on the Middle East was submitted by President Eisenhower in person to the Joint Session of the Congress called by him for that purpose on January 3, 1957. In President Eisenhower's January 3, 1957 draft of his Joint Resolution on the Middle East the words "overt armed aggression" appeared where only the words "armed aggression" now appear in the "revised" Joint Resolution on the Middle East enacted into law on March 9, 1957. President Eisenhower affixed his signature on March 9, 1957 to the "revised" Joint Resolution approved by both houses of the Congress a few days earlier. Between January 3, 1957 and March 9, 1957 President Eisenhower's Joint Resolution on the Middle East was "revised" by the sponsors behind the Eisenhower Middle East Doctrine to meet "situations" not anticipated earlier.

It must be apparent to intelligent persons that the Palestinian Arab expellees will of necessity for many reasons be compelled to resort to "covert armed aggression" when they cross the border of Palestine to return to their lawful homes in their ancient homeland of Palestine from the Arab Middle East countries where they are now temporarily in exile. For numerous reasons which are too apparent to recite here the Palestinian Arab expellees are not able to provide themselves with the weapons of offense required by them to duplicate the "overt armed aggression" of the 650,000 transplanted Zionists with which in 1948 they expelled from their homes in their ancient homeland without cause or provocation 1,000,000 disarmed helpless and harmless, innocent Palestinian Arab men, women and children in collusion with the United States and other powers.

The sponsors behind the Eisenhower Middle East Doctrine "revised" the January 3, 1957 Joint Resolution on the Middle East for that very obvious and realistic reason by the simple substitution of "armed aggression" for "overt armed aggression" in the revised Joint Resolution on the Middle East which was enacted into law on March 9, 1957. The sponsors behind the Eisenhower Middle East Doctrine were well aware of the fact that the Palestinian Arab expellees could not in the foreseeable future apply "overt armed aggression" against the Zionist puppet "state" in Palestine without armed forces more nearly equal to that of their enemies.

Consequently, if the phrase "overt armed aggression" was used in the Joint Resolution on the Middle East finally enacted into law, the Zionist puppet "state" in Palestine then could not demand United States armed forces to intervene in the Middle East for "the preservation of the independence and integrity" of the Zionist puppet "state" in Palestine, obviously the primary purpose of the Eisenhower Middle East Doctrine. If the phrase "overt armed aggression" was used in the Joint Resolution on the Middle East enacted into law and the "overt armed aggression" against the Zionist puppet "state" in Palestine never arose, the Zionist puppet "state" in Palestine could not demand United States armed forces to intervene in the Middle East under the terms of the Eisenhower Middle East Doctrine. Therefore "armed aggression" replaced "overt armed aggression."

The sponsors behind the Eisenhower Middle East Doctrine will ask intervention by United States armed forces in the Middle East for "the preservation of the independence and integrity" of the Zionist puppet "state" in Palestine if relatively small numbers of Palestinian Arab expellee "commandos" and "suicide squads" cross the border into Palestine from Egypt, Syria and Jordan. Any attempt by a relatively small number of Palestinian Arab expellee "commandos" or "suicide squads" to cross into Palestine by the use of "armed aggression" will bring intervention by United States armed forces in the Middle East under the Eisenhower Middle East Doctrine as finally enacted into law if requested by the Zionist puppet "state" in Palestine. They have acquired that authority!

The sponsors behind the Eisenhower Middle East Doctrine used the term "country controlled by international communism" in the Joint Resolution on the Middle East which was finally enacted into law on March 9, 1957 for a very obvious reason which is not a secret any longer. There is no person in the world who is able to supply an intelligent explanation of what is meant by "country controlled by international communism."

The sponsors behind the Eisenhower Middle East Doctrine selected the term "from any country" which was used in "armed aggression from any country controlled by international communism" for a very obvious reason. If the purpose of the Eisenhower Middle East Doctrine is "the preservation of the independence and integrity" of "nations of the Middle East" against "armed aggression" by other countries in the Middle East, or from elsewhere in the world including the Soviet Union, the Joint Resolution on the Middle East enacted into law should now read "by any country" instead of "from any country." In correct English the official acts by governments of sovereign states are described as acts "by any country" and not as acts "from any country." That choice of words was no accident.

"Armed aggression" against the Zionist puppet "state" in Palestine by Palestinian Arab expellee "commandos" or "suicide squads" is "armed aggression" in fact and in effect "from any nation" because Palestinian Arab "commandos" and "suicide squads" are Palestinians, not Egyptians, Syrians or Jordanians. The Palestinian Arab expellees are however in temporary exile in Egypt, Syria and Jordan. When Palestinian Arab expellees cross the border into Palestine from Egypt, from Syria or from Jordan they can be said to be crossing the border into Palestine "from any country." If Egyptians, Syrians or Jordanians cross the border into Palestine it then becomes an official act by the government of a sovereign state and "armed aggression" by Egypt, by Syria or by Jordan and correctly described as "armed aggression by any country." The return of Palestinian Arab expellee "commandos" or "suicide squads" to their homes in their ancient homeland in Palestine is not "armed aggression" as an official act by the government of Egypt, or of Syria or of Jordan or of any sovereign Middle East state against the Zionist puppet "state."

The use of the phrase "from any country" instead of "by any country" clearly indicates the intentions of the sponsors behind the Eisenhower Middle East Doctrine. They wished to make certain that the Joint Resolution on the Middle East enacted into law provided that United States armed forces intervene in the Middle East for "the preservation of the independence and integrity" of the Zionist puppet "state" in Palestine if the Palestinian Arab expellee "commandos" and "suicide squads" crossed the border into Palestine from Egypt, Syria or Jordan. There they are waiting in temporary exile until they can return to their homes again.

There is not any possibility at all that United States armed forces will ever be requested or required to intervene in the Middle East for "the preservation of the independence and integrity" of an Arab Middle East country against "armed aggression" by any other Arab Middle East country. There is not the remotest possibility that any Arab Middle East country will have need to require or request United States armed forces to intervene on their behalf for "the preservation of the independence and integrity of their country against Arab Middle East countries, or any country elsewhere including the Soviet Union. The Mutual Defense Treaty of 1944 of the League of Arab States and the United Nations Charter eliminate every necessity for United States armed forces to intervene in the Middle East under the Eisenhower Middle East Doctrine except in case of future aggression by the Zionist puppet "state" in Palestine.

The Arab Middle East countries are certain that United States armed forces will under no circumstances intervene in the Middle East against the armed forces of the Zionist puppet "state" in Palestine even where national honor and international integrity make such intervention a solemn and sacred obligation of the United States. On October 25, 1950 the United States proclaimed a Tripartite Declaration for the Middle East. The Tripartite Declaration warned the Middle East that the United States

Fact For Fact

would "immediately take action" in the Middle East if the borders of the Middle East were "violated." The United States warned the Arab Middle East countries on many occasions between October 23, 1950 and October 23, 1956 not to "violate" the borders of the Middle East or to suffer the consequences if they did so. The United States threatened to "immediately take action" against any Arab Middle East country that "violated" the 1949 so-called "armistice lines" of the Zionist puppet "state" in Palestine.

But when the Zionist puppet "state" in Palestine "violated" the borders of Egypt on October 23, 1956 the United States did not "immediately take action" against them. The Arab Middle East countries are now certain that if the Zionist puppet "state" in Palestine again attacks one or more Arab Middle East countries as Egypt was attacked that United States armed forces will under no circumstances intervene in the Middle East against the armed forces of the Zionist puppet "state" in Palestine under the Eisenhower Middle East Doctrine no matter how much the Arab Middle East countries ask the United States armed forces to intervene. The Arab Middle East countries are free from the contamination of any "international communism." In spite of that fact surely nobody can be so naive as to imagine that United States armed forces will under any circumstances intervene in the Middle East against the armed forces of the Zionist puppet "state" in Palestine under existing political conditions. However, at the first opportunity to do so the sponsors behind the Eisenhower Middle East Doctrine will supply the explanation that "country controlled by international communism" can only mean Egypt, Syria and Jordan and has always meant only Egypt, Syria and Jordan to the sponsors behind the Eisenhower Middle East Doctrine and must be so construed.

The Eisenhower Middle East Doctrine emphasizes that United States armed forces will intervene in the Middle East only if "armed aggression" is "from any country" which is "controlled by international communism." The Zionist puppet "state" in Palestine cannot demand United States armed forces to intervene in the Middle East on their behalf unless the Palestinian Arab expellee "commandos" or "suicide squads" cross the border into Palestine "from any country" which is "controlled by international communism." That provision will give this nation much trouble.

For that reason the dictatorial and totalitarian control exercised in the United States over the media of mass-communications for shaping public opinion by the international Zionist conspirators is used to "smear" Egypt, Syria and Jordan as "countries controlled by international communism." Egypt, Syria and Jordan are pictured to the nation in the media for mass-communications as "countries controlled by international communism." Unless the international Zionist conspirators can "smear" Egypt, Syria and Jordan as "countries controlled by international communism" the Zionist puppet "state" in Palestine cannot demand United States armed forces to intervene in the Middle East on their behalf when Palestinian Arab expellee "commandos" or "suicide squads" cross the border into Palestine from Egypt, Syria or Jordan, "from any country controlled by international communism" as Egypt, Syria and Jordan are now "smeared."

The term "international communism" is very misleading. The term "international communism" does not necessarily mean a Communist country. The term "international communism" is very elastic and very fluid and can mean many things besides a Communist country or a Communist government. The term "international communism" is not a synonym for Communism. There is actually more "international communism" today in the United States, Great Britain, France, Italy and in many other countries in the Christian European-Western Hemisphere 20% of the world's total population than in Egypt, Syria, or Jordan or other countries among the Asian-African 80% Moslem population of the world. "International communism" is being introduced today in every country of the world by the same Marxist conspirators who introduced it successfully in the Russian Empire in 1933. "International communism" is directed today throughout the world by the same Marxist conspirators who overthrew the Russian government in 1917. They have been less successful in Egypt, Syria and Jordan than in any other three countries in the world.

Egypt, Syria and Jordan are "smeared" today as "countries under the control of international communism" only because they are now obtaining weapons for their defense from the Soviet Union. Under pressure from the international Zionist conspirators with political influence in the United States these countries were unable to purchase from the United States what the Soviet Union is now selling to them. The United States gratuitously supplies the Zionist puppet "state" with the same equipment. If Egypt, Syria and Jordan can be kept weak and defenseless they will not be "smeared" as "countries controlled by international communism."

The Zionist puppet "state" in Palestine for many years formerly obtained from the Soviet Union large quantities of the same weapons now being supplied by the Soviet Union to Egypt, Syria and Jordan. The Zionist puppet "state" in Palestine was not then "smeared" as a "country under the control of international communism." The Soviet Union ferried enough equipment to the Zionist revolutionists in Palestine in 1943 to enable them to drive 1,000,000 Palestinian Arabs out of their homeland and into the deserts of Egypt, Syria and Jordan with that very equipment.

The Arab Middle East countries will never attack the Zionist puppet "state" in Palestine. The weapons Egypt, Syria and Jordan are accumulating are for defense against another possible attack at any time by the Zionist puppet "state" in Palestine. The Arab Middle East countries do not see any necessity for "armed aggression" by them at any time against the Zionist puppet "state" in Palestine. The Arab Middle East countries believe that the seeds of its own destruction were planted in the Zionist puppet "state" in Palestine when they mercilessly expelled 1,000,000 helpless and harmless, innocent Palestinian Arab men, women and children from their homes in their ancient homeland in Palestine without cause or provocation using the most brutal force and the most savage violence in modern history against any civilian population in peacetime.

The Arab Middle East countries understand they are "smeared" as "countries controlled by international communism" so that the Zionist puppet "state" in Palestine can call upon United States armed forces to intervene in the Middle East. The United States made the Zionist puppet "state" in Palestine its "darling" in recent years. As the "darling" of the United States the Zionist puppet "state" in Palestine cannot be considered as a "country controlled by international communism." If the Zionist puppet "state" in Palestine is a country not "controlled by international communism" and the Arab Middle East countries are "smeared" as countries "controlled by international communism" United States armed forces can

only intervene in the Middle East when called upon to do so by the Zionist puppet "state" in Palestine. The sponsors behind the Eisenhower Middle East Doctrine unquestionably "planned it that way" for their own reasons.

The Eisenhower Middle East Doctrine provides: "Furthermore, the United States regards as vital to the national interest and world peace the preservation of the independence and integrity of the nations of the Middle East." It is difficult to reconcile that statement with reality. United States "national interest" and "world peace" are both placed in the greatest danger in which they have ever been placed as the result of the Eisenhower Middle East Doctrine. The obligation of United States armed forces to intervene in the Middle East for "the preservation of the independence and integrity" of the Zionist puppet "state" in Palestine exposes the United States and world peace to the gravest threats to their existences which could possibly face either of them in the light of world conditions today.

There will never be peace in the Middle East as long as the Zionist puppet "state" in Palestine exists judging from all the evidence now available. As long as peace in the Middle East is in danger the peace of the world is correspondingly in danger. The obligation of the United States under the Eisenhower Middle East Doctrine to intervene with armed forces in the Middle East for "the preservation of the independence and integrity" of the Zionist puppet "state" in Palestine is making enemies for the United States of the Arab Middle East countries. The Arab Middle East countries are an influential group among the countries of the non-Christian Asian-African 80% of the world's total population. The Arab Middle East Moslem countries are also an influential group among the 500,000,000 Asian-African Moslems. The United States needs them as good friends now if the United States is to face the future confidently.

The natural resources of Asia and Africa and the future markets among the non-Christian Asian-African 80% of the world's total population are "vital to the national interest." Both the natural resources of Asia and Africa and the future markets of 80% of the world's total population will be lost permanently if United States armed forces intervene in the Middle East for "the preservation of the independence and integrity" of the Zionist puppet "state" in Palestine. If that ever comes to pass the economic future and the political stability of the United States will suffer a set-back from which it will be impossible to emerge again as a first-class power.

The foreign policy of the Soviet Union in the Middle East has won for the Soviet Union all the former friends of the United States in the Middle East. The Soviet Union will soon become the sole heir to the heritage of the United States in Asia and Africa. The Soviet Union has no reason now to think in terms of "armed aggression" in the Middle East. That is the last thing now in the minds of those who direct the destinies of the Soviet Union. The Soviet Union makes that fact very clear to the Arab Middle East countries. Soviet Union "armed aggression" is the figment of overworked imaginations and wishful thinking. The imaginary threat of Soviet Union "armed aggression" in the Middle East afforded to the sponsors behind the Eisenhower Middle East Doctrine an excuse to obligate United States armed forces to intervene in the Middle East for "the preservation of the independence and integrity" of the Zionist puppet "state" in Palestine, Soviet Union "armed aggression" there gains nothing.

The Eisenhower Middle East Doctrine will place the Soviet Union in the "driver's seat" in the Middle East. The United States will be unable to remain in the Middle East if United States armed forces intervene in the Middle East for "the preservation of the independence and integrity" of the Zionist puppet "state" in Palestine. That should be as plan to everybody concerned as the nose on their faces. The President of the United States should not advise the nation in effect that it is "vital to the national interest" for United States armed forces to intervene in the Middle East for "the preservation of the independence and integrity" of the Zionist puppet "state" in Palestine because he knows that is not the fact.

The sponsors behind the Eisenhower Middle East Doctrine included in it: "To this end, if the President determines the necessity thereof, the United States is prepared to use armed forces." That places greater military power in the hands of one man than any dictator ever possessed in the history of the world. In his sole discretion the President of the United States or his successors can intervene in the Middle East with the entire armed forces of the United States. If international Zionist conspirators in the United States prevailed upon President Truman to "recognize" the Zionist puppet "state" in Palestine 6 minutes after it was "proclaimed" by the transplanted Zionist revolutionists in Palestine, who can tell what President Eisenhower or his successors will be prevailed upon to do for "the preservation of the independence and integrity" of the Zionist puppet "state" in Palestine in view of their political power in this country now.

In spite of its inhumanity and illegality, Palestine was crucified in May 1943 on a "Cross of Gold" by the international Zionist conspirators in collusion with the three leading Christian powers of the world, in consideration of colonial and domestic political inducements. The lives and human rights of 1,000,000 harmless and helpless, innocent Palestinian Arab men, women and children were bartered away by Christian nations in a most un-Christian manner for the financial favors of the international Zionist conspirators. This bloody blot on the banner of Christendom will never be completely effaced from the memories of the non-Christian Asian-African 80% of the world's total population. It will be difficult to erase.

The nation must be told the pertinent facts which have been expunged from the news by the sponsors behind the Eisenhower Middle East Doctrine while there is still time for the nation to do something about the danger to the peace of the world. They will have to do the fighting and dying in the Middle East as the curtain-raiser of the dreaded all-out and full-scale East-West "hot" World War, or experience the same casualties at home if that war cannot be averted. The bottle-neck of this problem is the dictatorial and totalitarian control exercised over the media of mass-communications for shaping public opinion by the sponsors behind the Eisenhower Middle East Doctrine with an alloyed allegiance to this nation.

Wisdom is the use of knowledge. Knowledge is a collection of facts. The security of the nation, the life and liberty of every man, woman and child in the United States, and the peace of the world depend to a greater extent than now generally realized upon knowledge of the facts presented here. The knowledge to be obtained from these facts will enable this nation to defer indefinitely and possibly avert the outbreak shortly of the dreaded all-out and full-scale East-West "hot" World War.

HATEMONGERS SMEAR PATRIOTS WHO WARN NATION OF DEFEAT!

**World War III threatens security and sovereignty of nation;
Hope fast dwindling for United States victory and survival!**

CHARACTER-ASSASSINATION SABOTAGING NATION'S DEFENSE!

BY BENJAMIN H. FREEDMAN

FOUNDER 1946, LEAGUE FOR PEACE WITH JUSTICE IN PALESTINE

BENJAMIN H. FREEDMAN

Unless the United States is able to regain and retain the respect and regard of the peoples of Asia and Africa before the outbreak of World War III our defeat appears inescapable. The unjustified and unprovoked complicity of this nation in the Zionist revolution in Palestine in 1949 cost the United States as allies in World War III the 500,000,000 Moslems and 500,000,000 of other religious faiths in Asia and Africa. That unwarranted complicity will cost this nation access to the unlimited vast natural resources of Asia and Africa more vital to this nation's own defenses in World War III than now realized. That unwarranted complicity furthermore denies to this nation the use of strategic areas in Africa and Asia vital for the defenses of this continent in World War III. That unwarranted complicity surely opened a Pandora's box for the United States in Asia and Africa which it will be hard to shut.

On the day United States armed forces go into action in the Middle East under secret or non-secret commitments with Zionists the curtain will rise on the first act of World War III figuratively and literally. On that day the Soviet Union will not be found sitting on the side-lines as one of the disinterested onlookers judging by the historic ultimatum they issued in the Middle East in 1956 when the armed forces of Great Britain and France went into action against Egypt without provocation or justification under any international law or any provision of United Nations Charter.

These hatemongers preach and practice their unique method of character-assassination against the nation's courageous and self-sacrificing patriots as a defense strategy devised by them expressly to circumvent their exposure. The hatemongers' brain-washing apparatus practices the well-known military strategy that the offense is the best defense. The hatemongers smear the nation's patriots with the hatemongers' "anti-Semitism" smear with the full force of the hatemongers' brain-washing apparatus to discredit this nation's patriots in the eyes of the nation before they awaken the nation to the nation's danger. The hatemongers' "anti-Semitism" smear is the hatemongers' unique method for discrediting the nation's patriots in the eyes of the nation; a method the hatemongers have thus far found invincible and invulnerable. *How much longer will this nation stand for this sabotage?*

The unwarranted persecution mercilessly inflicted on me without interruption since 1945 by the hatemongers' brain-washing apparatus because I defied them to tell the nation facts the hatemongers ordered me not to tell the nation, challenges the traditional civil liberties guaranteed by the Constitution equally to every man, woman and child in the United States, the right of free speech, the right of freedom of the press, and the right of peaceful assembly, without the fear of persecution by the hatemongers' brain-washing apparatus with the hatemongers' "anti-Semitism" smear. Unless public opinion is sufficiently aroused to take measures restraining the hatemongers' brain-washing apparatus it will not be long before the nation loses the right to the free exercise of these three constitutional rights without which this nation will soon sink into the depths of defeat.

I promptly proceeded to tell the nation everything I knew of the dangers as the facts which follow here substantiate. In 1946 for the first time I was very summarily ordered by a hatemonger's duly delegated representative not to tell the nation any further facts concerning this situation. I summarily refused to remain silent. Thereupon the hatemongers' brain-washing apparatus was turned loose on me to an extent never before experienced by anyone. Every media for the control of public opinion hurled the hatemongers' "anti-Semitism" smear at me around-the-clock from coast-to-coast. Behind the hatemongers' brain-washing apparatus stood the *Bnai Brith*, *Anti-defamation League of Bnai Brith*, *American Jewish Com-*

mittee, *American Jewish Congress*, *World Zionist Organization* and their countless affiliates and subsidiaries instigating my persecution by them.

My single-handed struggle against the hatemongers' brain-washing apparatus was waged by me as a lone crusader since 1945 not by my choice but by necessity. From 1945 on the hatemongers' brain-washing apparatus continued spending millions of dollars to discredit me in the eyes of the nation with their "anti-Semitism" smear as their most vicious invective of all their vicious character-assassination invectives. From 1945 to date the hatemongers' "anti-Semitism" smear virtually quarantined me. The "guilt by association" fear felt by this nation for the hatemongers' "anti-Semitism" smear practically isolated me. I must confess that at various times I did feel discouraged, depressed and disgusted but I never did feel defeated.

My ability to hold my own single-handed against the onslaught of the hatemongers' brain-washing apparatus is proof to me that this nation can still win against them if the nation's courageous and self-sacrificing patriots will make up their minds to fight side-by-side and not like "lone-eagles" as in the past. Once upon a time the motto of this nation was "one for all and all for one." That policy pulled this nation out of many holes in the past. It can do so again! Why not try it again? This nation can always be depended upon to put up a winning fight if the issues are honestly explained. If the nation prefers to follow the policy that "ignorance is bliss" and "it is folly to be wise" the control of this nation by the hatemongers' brain-washing apparatus will just continue to grow, and grow, and grow!

The fear of the hatemongers' "anti-Semitism" smear silences millions in the United States today. These potential patriots fear to speak out what is on their minds for fear of the hatemongers' "anti-Semitism" smear. It is indeed a strange paradox and a sad commentary that in this literate nation that ignorance about "anti-Semitism" becomes responsible for this condition. That knowledge will quickly enable the nation once again to enjoy three traditional rights which they can no longer enjoy, freedom of speech, freedom of the press, and freedom of assembly, without fear of the hatemongers' "anti-Semitism" smear to restrain full exercise of these rights.

These vicious hatemongers have now developed their "anti-Semitism" smear into the most deadly weapon in their arsenal of character-assassination weapons. The hatemongers' "anti-Semitism" smear outstandingly demonstrated its preeminence for discrediting the nation's patriots in the eyes of the nation. The fear of the hatemongers' "anti-Semitism" smear has made this nation a nation of cowards but with some justification on the part of the cowards. Survival to them is still the first law of nature. They are aware the hatemongers' "anti-Semitism" smear has ruined patriots in business, in professions, and in politics. *This vicious vengeance must stop!*

The fear of the hatemongers' "anti-Semitism" smear will quickly and forever disappear if religious leaders, educators and editors undertake to enlighten the nation on this subject, and if they themselves will stop using the hatemongers' "anti-Semitism" smear-word altogether commencing now. They are all so well educated on this subject. They were taught all the facts. Has the fear of the hatemongers' "anti-Semitism" smear made cowards too of the nation's religious leaders, educators and editors? They appear to fear the hatemongers' "anti-Semitism" smear just as much as persons in business, in professions, and in politics. Now to whom then can the nation turn to learn the "facts of life" about the hatemongers' "anti-Semitism" smear? *Do they consider this a nation of dupes or dopes or both?*

This nation little realizes and much less understands that today the most vicious hatemongers in the United States are *Bnai Brith*, *Anti-defamation League of Bnai Brith*, *American Jewish Committee*, *American Jewish Congress*, *World Zionist Organization* and all their affiliates and subsidiaries. These hatemongers preach and practice their unique method of character-assassination against this nation's courageous and self-sacrificing patriots who ignore all consequences to themselves to tell the nation facts too long suppressed by the hatemongers for the good of the nation; the whole truth about their purposes, about their policies and about their programs. These courageous and self-sacrificing patriots cannot by any stretch of the imagin-

Fact For Fact

tion be considered hatemongers in the literal sense of that word. These vicious hatemongers smear this nation's courageous and self-sacrificing patriots as "hatemongers" with their brain-washing apparatus as a defense strategy to divert public attention away from the fact they themselves are the nation's hatemongers masquerading as patriots in various disguises.

The most vicious hatemongers in the United States to my knowledge have concentrated their brain-washing operations in the most formidable brain-washing apparatus in world history. In the United States today these hatemongers control the news columns and editorial policies of the nation's leading newspapers, they control the programs of all television and radio networks, they control all production and exhibition of motion-pictures, and they control the leading publishers of magazines and books of all types. These hatemongers have made public opinion in the United States their prisoner with control by them of this unprecedented and unparalleled brain-washing apparatus. This situation poses a threat to the security of the nation because the public is kept in ignorance of the real issues involved.

The nation's courageous and self-sacrificing patriots do not deny they hate certain things but with some justification for their feelings. They make no secret of the fact they hate Marxism, Communism, Bolshevism, Fabianism, atheism, anarchism and each of the many camouflaged other versions of Marxist "isms", all masquerading in a variety of disguises with innocuous titles under which they are parading themselves before an unsuspecting nation. The nation owes to these courageous and self-sacrificing patriots a greater debt than can ever be repaid to them. The nation's gratitude is far from sufficient to liquidate that liability. The nation must search for and find a way to inspire these patriots to go on hating Marxist ideologies more, and more, and more. These patriots are not easily fooled by the deceptions practiced by Marxists to infiltrate into unsuspecting places in our fragmented society further to disorganize and to disintegrate our complex political, social and economic structure as the nation ignores their warnings.

These hatemongers fear only one thing. They fear the truth. They have a deadly fear that the nation's courageous and self-sacrificing patriots may some day succeed in opening the eyes of the nation. For many years these hatemongers have been using their brain-washing apparatus and their "anti-Semitism" smear to suppress many facts about themselves for obvious reasons. The nation should now exercise its right to investigate *B'nai B'rith*, *Anti-Defamation League of B'nai B'rith*, *American Jewish Committee*, *American Jewish Congress*, *World Zionist Organization* and their countless affiliates and subsidiaries to the same extent and in the same manner that these hatemongers use the full impact of their brain-washing apparatus to compel "investigations" of the nation's patriots only to harass them and thereby to exhaust their precious time and their little money in self-defense.

In 1945 for the first time I learned about the Zionist conspiracy to transform Palestine into a synthetic Zionist so-called "sovereign Jewish state" by "hook or crook" and "come hell or high water". The ramifications of the Zionist conspiracy staggered my imagination as they were unfolded to me in 1945. The implications, inferences and innuendos of the Zionist conspiracy shocked me out of my post-war complacency at the close of World War II. The Zionist conspiracy for aggression in the Middle East convinced me in 1945 that Zionist aggression in Palestine would trigger World War III in the not very distant future. I acted upon my duty to tell the nation this fact for security reasons. In my considered judgment the fate of the nation and the destiny of mankind were threatened by the ~~unsubstantiated~~ ^{unsubstantiated} ~~allegation~~ ^{allegation} of the plot to create in Palestine a synthetic Zionist so-called "sovereign Jewish state" by the use of force and violence.

The literal meaning of "anti-Semitism", as the prefix "anti" signifies, must mean the opposite extreme of the literal meaning of "Semitism". That must follow. It also follows that to understand the literal meaning of "anti-Semitism" it is first necessary to understand the literal meaning of "Semitism". The word "Semitism" is a word invented only late in the 19th century. The word "Semitism" is a word invented by a Swiss historian seeking to coin a new word to denote and designate the civilization and culture of the ancient so-called "Semites" for which no word then existed.

The word "anti-Semitism" is literally a word without meaning or sense. The word "anti-Semitism" was invented only late in the 19th century by followers of Karl Marx in eastern Europe. Late in the 19th century the early organized followers of Karl Marx founded the first Marxist organization in the history of Marxism dedicated to implementing the original Karl Marx program for the world-wide Marxist revolution. This first Marxist organization was founded in Poland in 1893 by a small group of so-called "Jews" who then unconditionally restricted the membership exclusively to so-called "Jews" of the working classes in eastern Europe.

This first Marxist organization was called the *Bund* by its founders. This first Marxist organization became the "pioneer" of the world-wide Marxist network seeking since 1893 to implement by force and violence or by subversion the well-known Karl Marx program for a world-wide revolution, according to reliable sources of information on this subject including among others national archives, files of the *Encyclopedia Britannica* and books, records and documents of other leading research specialists.

Shortly after the first organized efforts by organized Marxist revolutionists in eastern Europe to implement the Karl Marx program, they found it necessary to invent the word "anti-Semitism" as a defense measure for strategic reasons. The first organized Marxist revolutionists were forced to defend themselves in eastern Europe against the rapidly rising tide of Christian opposition to the growing threat of Marxism to eastern Europe in particular. The members of the Marxist *Bund* were compelled to continue their efforts more discreetly behind the smoke-screen of the word "anti-Semitism". For reasons which are easily understood by Christians, the Marxist revolutionists continued using the word "anti-Semitism", with great success as a smoke-screen to meet their needs for a defense strategy.

The brain-washing apparatus of the Marxist revolutionists in eastern Europe proceeded to brain-wash Christian nations throughout the world that Christian opposition to Marxism was "anti-Semitism" and that "anti-Semitism" was Christian intolerance towards so-called "Jews" solely for religious reasons. Christians antagonism to so-called "Jews" in eastern Europe at that time was not based upon religious intolerance but upon the fact that at that time Marxists in eastern Europe were so-called "Jews." At the same time and in the same manner Christian antagonism developed towards Moslems, Hindus, Buddhists and Confucians who happened also to be Marxists. That antagonism was not religious intolerance at all. Christians felt the same for the same reason towards all Marxist revolutionists without any interest in their religious faiths as so-called "Jews" well knew.

The word "anti-Semitism" is totally meaningless and completely senseless to denote or designate alleged Christian intolerance or antagonism towards so-called "Jews" based upon their religious belief. By the same token the word "anti-Semitism" is equally meaningless and senseless to denote or designate alleged Christian intolerance or antagonism towards

Marxists because they also happen to be so-called "Jews" and vice-versa. Karl Marx's earliest followers in eastern Europe invented the word "anti-Semitism" solely as a defense measure to stigmatize Christian opposition to Marxism as Christian "religious intolerance". The literal meaning of the word "anti-Semitism" makes it the height of absurdity and of stupidity to associate Christian intolerance for Marxist revolutionists with alleged Christian intolerance for so-called "Jews" solely on that account. So-called "Jews" maintain that "Judaism" and Marxism have very much in common.

The 19th century invention of the word "anti-Semitism" by so-called "Jews" who were also Marxists created a word that is literally meaningless and senseless. The word "anti-Semitism" by any stretch of the imagination cannot mean what the hatemongers have brain-washed the nation to believe it means. The hatemongers' brain-washing apparatus has given the word "anti-Semitism" an implication; an inference and an innuendo totally foreign to the literal meaning of "anti-Semitism". There is a literal meaning to the word "anti-Semitism" but that meaning is totally in conflict with the implication, the inference and the innuendo the hatemongers' brain-washing apparatus has succeeded in giving the word "anti-Semitism".

The ancient so-called "Semites" were the legendary descendants of Shem. Shem was one of Noah's three sons. Shem was the name of this son of Noah in the so-called "Semitic" language then spoken in Shem's homeland at the time of his birth in the very remote past. With the passage of countless thousands of years the name Shem became "Sem" in the Greek and Latin languages. With the passage of further years modern theologians and historians referred to the legendary descendants of Shem as "Semites" not as Shemites. Similarly Shemitism became "Semitism", Shemitic became "Semitic", and Shemite became "Semite" and they thus have since remained.

The words "Semite", "Semites", "Semitic" and "Semitism" were not invented to denote or designate race, religion or natural origin by implication, inference, innuendo or otherwise. These words were invented solely to denote or designate in a geographic sense the inhabitants of a specific geographic region. In this case the Middle East's several million square miles joining together the continents of Europe, Asia and Africa. The ancient so-called "Semites" who inhabited that region throughout history included persons and nations of many races, many religions and many national origins. These words were not invented to denote or designate physical, mental or cultural characteristics typical of any one race, ceremonial rituals characterizing one religious faith, or the historic ancestry or national origin of a world-wide religious sect claiming common ancestry.

The ancient so-called "Semites" who inhabited the Middle East's several million square mile region joining together the continents of Europe, Asia and Africa throughout their long history spoke 43 so-called "Semitic" languages. The word "Semitic" was invented by modern philologists and etymologists solely to denote and designate the 43 so-called "Semitic" languages of similar form and structure spoken by so-called "Semites" throughout the ages. The word "Semitic" literally and solely denotes and designates the languages spoken by past and present so-called "Semites" without insinuating race, religion or national origin by implication, inference, or innuendo as a misleading new meaning for its true ancient meaning.

In passing it may be of interest to mention here that the modern English word "Hebrew" is a modern English word invented to denote and designate the ancient so-called "Semitic" language spoken by the ancient Canaanites at the time Joshua and 600,000 Egyptian exiles invaded Canaan about 1200 B.C. After wandering in the Sinai desert for 40 years as impoverished and derelict nomads searching for a more promising region in which to settle permanently, Joshua and 600,000 Egyptians invaded Canaan and settled there after a long and bitter war for 200 years against the Canaanites who had done nothing to provoke the invasion or conquest.

After living a primitive existence in the Sinai desert for 40 years, Joshua and the 600,000 Egyptian exiles lost much of the culture and many of the customs they took with them when they departed from Egypt. They retained a very limited Egyptian vocabulary but no written form for the language they then spoke. At this period in history the Egyptian language used hieroglyphic pictures and cuneiform characters with which they preserved for posterity permanent records of their spoken language.

Canaan was not very far to the North of the Sinai desert where Joshua and 600,000 Egyptian exiles wandered for 40 years. At that period in history Canaan was the wealthiest so-called "Semite" nation in the vast Middle East region and enjoyed the most highly developed culture of all so-called "Semite" nations. The Canaanites possessed a language with the most extensive vocabulary of all so-called "Semitic" languages with one of the world's early modern alphabets, a modified form of the Assyrian alphabet, the first-born of modern alphabets at the dawn of civilization.

After the conquest of Canaan, Joshua and the 600,000 Egyptian exiles quickly mastered the extensive vocabulary of the Canaanite language and made it their new language known since as the so-called "Hebrew" language. Joshua and the 600,000 Egyptian exiles also quickly mastered the Canaanite alphabet and made it their alphabet, the first written form for any language ever spoken by them and known now as the so-called "Hebrew" alphabet, since then the only language and alphabet by that name.

Any reference today to a so-called "Hebrew" language is in fact a modern reference to the ancient so-called "Semitic" language then spoken by Canaanites, and any reference today to a so-called "Hebrew" alphabet is in fact a reference to the ancient so-called "Semitic" alphabet of the ancient Canaanites for centuries prior to the conquest of Canaan by Joshua about 1200 B.C. notwithstanding around-the-clock brainwashing to the contrary by the hatemongers' brain-washing apparatus for obvious reasons, the game of giving new names to old products to fool the public!

The modern English word "Hebrew" comes from the ancient so-called "Semitic" word "ibrah". The literal meaning of the so-called "Semitic" word "ibrah" is "a from over on the other side". The ancient so-called "Semites" used the word "ibrah" to denote or designate as immigrants persons emigrating to make their permanent residence in another country, "a from over on the other side" of a mountain range, a lake, a river, or a sea. The ancient so-called "Semites" used the word "ibrah" in its plural sense to denote or designate aggressor nations as invaders in the sense invading nations in effect were immigrants collectively and were thus so described.

The first mention of the word "Hebrew" in the English modern translations of the Old Testament is the mention there of Abraham for the first time as a so-called "Hebrew". In the ancient Old Testament original scrolls Abraham is mentioned as "Abram ibrah" in the same verse he is mentioned as a so-called "Hebrew" in the English modern translations. The world's greatest Scriptural authorities among philologists and etymologists, and eminent theologians and historians, translate the ancient so-called "Semitic" term "Abram ibrah" as "Abraham the immigrant", their authentic translation.

Fact For Fact

Abraham of Bible fame immigrated from his homeland in Chaldea into Canaan about 1900 B.C. first entering Canaan from across the Taurus Mountains which separated Chaldea from Canaan thus becoming to the Canaanites "a from over on the other side". The modern English word "Hebrew" is meaningless and senseless to convey the impression that Abraham immigrated from his homeland in Chaldea into Canaan. Abraham of Bible fame became "a from over on the other side" when he first arrived in Canaan as an "ibral". The original Old Testament ancient manuscripts so describe Abraham. In 1200 B.C. when Joshua and 600,000 Egyptian exiles invaded Canaan they also became "ibral" but in the plural sense of the word. The plural sense of "ibral" applies to nations as invaders. Joshua and the 600,000 Egyptian exiles thus became the first so-called "Hebrew" nation in history when they invaded Canaan, a nation "from over on the other side", a word never used that way before in all history.

The word "Hebrew" in English is a word of modern vintage. The description of Joshua and the 600,000 Egyptian exiles who conquered Canaan as a so-called "Hebrew" nation is the first mention in the English language of a so-called "Hebrew" nation as such. From time immemorial, back unto "the time when the memory of man runneth not to the contrary", there are no earlier records in the history of the world indicating the prior existence of a so-called "Hebrew" nation, a so-called "Hebrew" race, a so-called "Hebrew" religion, a so-called "Hebrew" language or a so-called "Hebrew" alphabet in the sense given to the word by brain-washing today.

This nation has been brain-washed by the hatemongers' brain-washing apparatus into believing that at some remote time in ancient history the modern English word "Hebrew" denoted or designated then an ancient so-called "Hebrew" nation, an ancient so-called "Hebrew" race, an ancient so-called "Hebrew" religion, an ancient so-called "Hebrew" language, and an ancient so-called "Hebrew" alphabet. All are now contradicted by countless incontestible historic facts notwithstanding endless brain-washing to the contrary poured out by the hatemongers' brain-washing apparatus.

Abraham neither discovered nor invented monotheism, the belief in an invisible, omnipotent and eternal deity notwithstanding brain-washing to the contrary by the hate-mongers' brain-washing apparatus for reasons to obvious to require explanation here and now. For many thousand years prior to Abraham's conversion to belief in an invisible, omnipotent and eternal deity known then as the worship of Yaweh, monotheism was blooming and booming among the so-called "Semites" in the extensive Middle East region of several million square miles joining together the continents of Europe, Asia and Africa as 20th century discoveries establish.

For at least 100 generations during the several thousand years immediately preceding Abraham's historic immigration into Canaan about 1900 B.C. millions of so-called "Semites" in each of these 100 or more generations made their homes in the extensive Middle East region of the several million square miles which join together the continents of Europe, Asia and Africa. From time immemorial, from "the time when the memory of man runneth not to the contrary", until the 20th century that extensive several million square mile Middle East region joining with each other the continents of Europe, Asia and Africa was without interruption solely the homeland of so-called "Semite" nations notwithstanding brain-washing to the contrary by the hatemongers' brain-washing apparatus to justify Zionist infiltration since 1920 and their 1945 rebellion in Palestine for the establishment there by force and violence of the synthetic Zionist so-called "sovereign Jewish state" for which no justification has ever existed!

For at least these 100 generations during the several thousand years immediately preceding the conversion of Abraham-the-pagan in 1900 B.C. to monotheism in his old age by the so-called "Semites" among whom Abraham settled, today it is recognized by all leading theologians and historians that monotheism during that period was widely practiced by so-called "Semites" throughout this extensive region. This extensive Middle East region is today recognized by leading theologians and historians as the cradle of monotheism for thousands of years prior to the time of Abraham's conversion to the worship of Yaweh, about 1900 B.C., the modern worship of Jehovah, the first organized recognition by mankind of an invisible, omnipotent and eternal deity in the history of monotheism.

In 1945 I was invited to join American Council for Judaism by several prominent members. In 1945 American Council for Judaism took the position that so-called "Judaism" was a religious faith and only a religious faith. In 1945 American Council for Judaism likewise took the position that persons professing so-called "Judaism" as their religious faith did not solely by operation of that fact thereby become members of a mythical and mystical ancient so-called "Jewish race" and by the same token also become citizens of a mythical and mystical ancient so-called "Jewish nation." I fully subscribe to the position taken by American Council for Judaism on that question because it is supported by incontestible proof.

Consistent and compatible with their incontestible knowledge on this subject American Council for Judaism in 1945 publicly expressed very strong objections to the plan to transform Palestine into a synthetic Zionist so-called "sovereign Jewish state." American Council for Judaism did not hesitate to indicate their opposition wherever and whenever the opportunity presented itself. This however was not very often. The hatemongers' brain-washing apparatus took the extreme opposite view on this subject. They denied American Council for Judaism access to media of mass-communications for shaping public opinion to tell the nation the truth about the new Palestine crisis. The hatemongers' brain-washing apparatus reserved the media of mass-communication for shaping public opinion exclusively for themselves to tell the nation their untruths on this subject.

Since 1945 every media of mass-communications for shaping public opinion has been utilized to its fullest extent by Bnai Brith, Anti-Defamation League of Bnai Brith, America Jewish Committee, American Jewish Congress, World Zionist Organization and their countless affiliates and subsidiaries to brain-wash the nation that every so-called "Jew", in the meaning given by the hatemongers' to that word, was solely by reason of that fact unequivocally a member of a mythical and mystical ancient so-called "Jewish race" and solely by reason of that fact also a citizen of a mythical and mystical ancient so-called "Jewish nation" knowing that to be untrue!

In 1945 I joined American Council for Judaism. The wealthy Lessing Rosenwald founded American Council for Judaism in 1943 and has been its financial backer since he founded it. Associated very closely with Lessing Rosenwald in his American Council for Judaism activities is Rabbi Elmer Berger. Rabbi Berger is Executive Director of American Council for Judaism and has been since it was founded in 1943. Lessing Rosenwald incidentally is a son and heir of the late Julius Rosenwald of Sears Roebuck & Co. fame whose estate exceeded \$350,000,000.00 when he died.

In 1945 Lessing Rosenwald and Rabbi Berger led me to understand American Council for Judaism was eager to commence an extensive and

expensive advertising campaign with full-pages in newspapers in leading cities across the country telling the nation the truth, the whole truth and nothing but the truth about the situation in Palestine and how it affected the security of this nation and the peace of the world. In 1945 this nation understood little and cared less about what was happening in Palestine. World War II had ended and the nation had enough to worry about at home without worrying then about Zionist plans for aggression in Palestine.

In 1945 the hatemongers' brain-washing apparatus was conducting an advertising campaign with full-pages in newspapers across the country in the most expensive and intensive campaign of its kind in history, brain-washing the nation with untruths, half-truths and distortions of truth about the Palestine question. The need to tell the truth to the nation about the Palestine question created the necessity for an equally effective advertising campaign by American Council for Judaism and was the one and only reason justifying the existence of American Council for Judaism in the opinions of the preponderant majority of members concerned with this vital matter.

The American Council for Judaism advertising campaign never materialized. The reason for this that was told to me was the required money was not available. That excuse did not impress me. If Lessing Rosenwald's sister could contribute from her personal income \$1,000,000.00 annually to United Jewish Appeal her brother could easily defray the cost of the American Council for Judaism advertising campaign without great personal sacrifice. I then realized that money was not the real reason American Council for Judaism abandoned the plan for an advertising campaign with full-pages in newspapers in leading cities across the country. I know the actual reason now but it will serve no purpose to explain it here and now.

World tensions were growing more acute as the situation in Palestine grew worse. I felt something had to be done quickly to inform the nation of the facts before the situation in Washington got out of hand due to lobbying threatened by the hatemongers' brain-washing apparatus. Without hesitation or equivocation I promptly volunteered to personally supply from my private funds all the money necessary to defray the entire costs for an American Council for Judaism advertising campaign with full-pages in newspapers in leading cities across the country as long as required to tell of the great deception being practised upon the nation by the hatemongers' brain-washing apparatus without arousing suspicion. My offer was rejected!

In 1945 Zionists demanded Palestine claiming Palestine was the "homeland" solely of their ancestors in Bible history, which they knew to be untrue! In 1945 Zionists demanded Palestine claiming so-called "Jews" throughout the world were now living in "exile", which they knew to be untrue! In 1945 Zionists demanded Palestine claiming "religious persecution" scattered so-called "Jews" to the four corners of the earth, which they knew to be untrue! In 1945 Zionists demanded Palestine claiming so-called "Jews" had prayed for Palestine as their home for 2000 years, which they knew to be untrue! In 1945 Zionists demanded Palestine claiming God defaulted in his agreement to give Palestine to Abraham's "chosen people" as their "Promised Land", which they knew to be untrue! In 1945 Zionists demanded Palestine claiming Great Britain gave it to them in 1917 by a letter from Arthur Balfour to Lord Rothschild, which they knew to be untrue! In 1945 Zionists demanded Palestine claiming Article XXII of the League of Nations Covenant gave it to them in 1920, which they knew to be untrue! In 1945 Zionists demanded Palestine claiming the League of Nations "Mandate" gave it to them in 1922, which they knew to be untrue!

I then realized for the first time that it was hopeless to expect American Council for Judaism to ever offer effective opposition to the hatemongers' brain-washing apparatus with the necessary full-pages in newspapers in leading cities across the country. After consultation with the nation's leading citizens of every interested religious faith and all interested national backgrounds at the highest levels in New York and Washington I decided to form the League for Peace with Justice in Palestine. The Board of Directors was to have on it representatives of all interested religious faiths and all interested national backgrounds among the nation's outstanding men and women who had unanimously expressed enthusiasm for the purpose, the policy and the program of the League for Peace with Justice in Palestine. They also felt this was the only way to cut that Gordian knot.

Without in any way disturbing my cordial relations with Lessing Rosenwald, Rabbi Berger or other members of American Council for Judaism I requested my attorneys Messrs. Riegelman, Strasser, Schwartz & Spiegelberg then at 160 Broadway, New York City to incorporate a non-profit membership corporation with the name League for Peace with Justice in Palestine. Messrs. Riegelman, Strasser, Schwartz & Spiegelberg requested my consent to permit them before they proceeded further with the matter to ask their principal clients and other members of their law firm if they objected to having the League for Peace with Justice in Palestine as a client in their law offices. Messrs. Riegelman, Strasser, Schwartz & Spiegelberg received the unanimous consent of their principal clients and all other members of their law firm after explaining to them the purpose, the policy and the program of the League for Peace with Justice in Palestine. They then proceeded forthwith to incorporate the League for Peace with Justice in Palestine under the laws of the State of New York for non-profit membership corporations and Justice Aron Steuer validated its formation.

A few days after the incorporation of the League for Peace with Justice in Palestine the first of a series of full-pages in newspapers in leading cities across the country appeared in New York City in the New York Herald Tribune and other leading newspapers. Hell seemed to break loose on that day as far as I was concerned. The headline of these full-pages appearing in the newspapers was "Political Zionists Exploit Untruths About Palestine." The full-page reading matter listed 14 untruths with which the nation was then being brain-washed by the hatemongers' brain-washing apparatus.

On May 2, 1946 the same day the first full-pages appeared in the newspapers in New York City a large delegation from the headquarters of the hatemongers' brain-washing apparatus descended like a tornado upon the offices of Messrs. Riegelman, Strasser, Schwartz & Spiegelberg to read the "riot act" to Charles A. Riegelman the head of the firm. They accused Riegelman of being "anti-Semitic" because his law firm had incorporated the League for Peace with Justice in Palestine for me. After several hours further abuse by these delegates Riegelman fell to the floor with such a severe heart attack that he could not be moved from his office to his home for several days. Riegelman never recovered and died shortly afterwards.

Messrs. Riegelman, Strasser, Schwartz & Spiegelberg informed the delegates there from the headquarters of the hatemongers' brain-washing apparatus that I was the moving spirit behind the League for Peace with Justice in Palestine. The hatemongers' brain-washing apparatus thereupon transferred their attention to me after compelling Messrs. Riegelman, Strasser, Schwartz & Spiegelberg to send to my home that same day all the books, records and documents of the League for Peace with Justice in

Fact For Fact

Palestine with a letter stating that they did not any longer wish this "anti-Semitic" corporation to further consider itself the client of their law offices.

On the same day the *League for Peace with Justice in Palestine's* first full-page announcements appeared in newspapers in New York City. Messrs. Riegelman, Strasser, Schwartz & Spiegelberg telephoned to me and requested that a member of the firm be permitted to call at my home that evening with a gentleman who wished very much to meet me, to which I consented. That evening a member of the firm called and brought along with him a George Minzer. George Minzer remained alone at my home until long past midnight "laying down the law" to me as he did to criminals while Assistant U. S. District Attorney in charge of criminal prosecution.

At the time of his visit to my home George Minzer was General Counsel for *American Jewish Committee*. Minzer stated to me he was duly delegated to demand that I forthwith cease and desist my present activities related to the Palestine question. Minzer warned me that if I did not submit to his ultimatum I would soon "learn the meaning of retaliation." I have witnessed and affidavits to prove that *Minzer made that threat over and over again!*

I called Minzer's attention to my Constitutional right to freely express myself orally or in writing on any subject not prohibited by law. Minzer laughed at that reminder of the Constitutional rights he was so recently well paid by the United States Government to preserve, in keeping with my life-long policy of peaceful pursuit of all objectives whenever and wherever possible. I suggested to Minzer that he arrange a conference with Samuel D. Leidesdorf to discuss this matter. Leidesdorf was the most prominent official in *American Jewish Committee* of which Minzer was also then General Counsel. Minzer did not welcome this suggestion and refused to agree with my suggestion for us to discuss that matter with Leidesdorf.

Samuel D. Leidesdorf is one of this nation's most outstanding citizens. Leidesdorf judgment is so sought by many in all walks of life because his decisions are unselfishly based upon unbiased and unprejudiced consideration of the justice and equity involved. There are few men in this country today whose opinions are more valued than Leidesdorf's opinions. I do not speak from hearsay. I was his close personal friend and his business associate in many enterprises from 1925 to 1943. I was anxious to have Leidesdorf mediate Minzer's ultimatum and to abide by Leidesdorf's recommendations as I have done for more than 20 years without regrets. I called this to Minzer's attention but he refused to submit the matter to Leidesdorf for consideration by him in the interest of all parties concerned.

The reading matter following the headline "Political Zionists Exploit Untruths About Palestine" in the first full-page *League for Peace with Justice in Palestine* paid advertisement to appear in New York City newspapers was approved in advance of its publication by the law firm of Messrs. Sackett, Chapman, Brown & Cross as attorneys on behalf of The New York Herald Tribune whom they have represented for more than a century. I myself submitted this reproduction-proof to Mrs. Ogden Reid personally. Mrs. Reid owned The New York Herald Tribune and requested that I submit the reproduction-proof to her attorneys for their approval before she could consider publishing the full-page in her newspaper. She could not believe her eyes when she read the copy in the reproduction-proof I left with her for her study. I submitted a reproduction-proof to Messrs. Sackett, Chapman, Brown & Cross and they gave their unqualified approval to my analysis of each of the 14 untruths after considerable independent research and study on their part as requested by Mrs. Ogden Reid.

The hatemongers' brain-washing apparatus soon thereafter made war on the newspapers in New York City demanding that they refuse to publish the full-page announcements of the *League for Peace with Justice in Palestine*. The New York Times, The New York Herald Tribune, New York Journal, The World-Telegram, and The Evening Sun thereupon refused to publish the full-page reproduction-proofs of the *League for Peace with Justice in Palestine* submitted to them by Wortman, Barton & Gould of 345 Madison Avenue, New York City an old and respected advertising agency then representing the *League for Peace with Justice in Palestine*.

Faced with this boycott by newspapers in New York City I visited each of them in person to ascertain their reasons for refusing these full-page advertisements of the *League for Peace with Justice in Palestine*. I was told by them that if newspapers published the full-page *League for Peace with Justice in Palestine* advertisements they would lose the advertising in their newspapers of every department store and every other large newspaper advertiser owned or controlled by *B'nai B'rith*, *Anti-Defamation League of B'nai B'rith*, *American Jewish Committee*, *American Jewish Congress*, *World Zionist Organization* and their countless affiliates and subsidiaries. This boycott of any newspaper in New York City or anywhere in the United States would quickly put it into bankruptcy or out of business altogether!

Faced with this dilemma I did not know just what to do about it. My new attorney, by name Hallam Richardson, told me at the time he heard of a newspaper in New Jersey he believed might accept advertising from the *League for Peace with Justice in Palestine*. Hallam Richardson is the son of Eubank Richardson the eminent dean of all Methodist Bishops for many years before his death, who recently had become my new attorney. I asked Richardson to investigate that possibility. Richardson did so. He arranged an appointment at my home with the editor and publisher of the New Jersey newspaper. That is how I made the acquaintance of Conde McCinley, of Union, New Jersey the editor and publisher of *Common Sense* a publication fighting to protect and preserve our sacred heritages.

McKinley cautioned me at our first meeting that neither he nor *Common Sense* were popular with the hatemongers' brain-washing apparatus. McKinley cautioned me that some of his hatemongers' "anti-Semitism" smear might "rub off" on me. I cautioned McKinley that some of my hatemongers' "anti-Semitism" smear might "rub off" on him. McKinley offered me the pages of *Common Sense* in which to tell my story to the nation. If I have been of any assistance in making *Common Sense* the force which it is today I am not the one to talk about it. If anyone outside the hatemongers' brain-washing apparatus is interested in further details I feel quite sure that information will be gladly supplied to them by my friend Conde McKinley.

I can fill many volumes with stories about the pitiless and merciless persecution I was obliged to suffer solely because I was telling the nation facts relevant to the security of the country which the hatemongers' brain-washing apparatus did not want the nation to know. I will now only tell of two incidents because they show to what extent the hatemongers' brain-washing apparatus exerts a big influence over decisions made by public officials who fear for their careers if they ignore "suggestions" to them.

At 2:30 P.M. on the afternoon of November 11, 1947 I was in the Delegates Lounge of United Nations at Lake Success. I was attending the sessions of United Nations General Assembly debating the Palestine question before they voted their Zionist-sponsored resolution to "partition" Palestine. I received an urgent telephone call there insisting that I must address the regular monthly meeting of the Rockland County Republican Club that evening on Armistice Day Eve at 8:30 p.m. in Spring Valley, a suburb of New York City. I was to be the guest speaker instead of Reverend McAlister Griffith the scheduled speaker who was suddenly taken ill. The subject upon which I was to talk was the Palestine situation at that time.

I arrived in Spring Valley by bus with my wife about 8:00 p.m. and was met at the bus station by the president of the club. The president of the club escorted my wife and myself to the hall over the main fire-station where the club holds its monthly meetings. The hall accommodates about 1000 persons comfortably. The president of the club was introducing my wife and myself to members already present when the door to the hall was flung open and in walked three men wearing United States Army uniforms and over-seas caps. Neither of them looked like a member of that club.

The three men in army uniforms dashed around the hall shouting in loud voices, "which one is Freedman?" The president of the club brought them over to me not knowing why they wanted to meet me. The leader addressed me saying "You cannot talk here. We do not allow anti-Semitism in Rockland county." I asked him whether he was a member of the club. He stated he was not a member. I asked him by whose authority he invaded private premises to prevent a peaceful meeting by members of the club. Pointing to an insignia on his over-seas cap he replied "The Jewish War Veterans will not allow you to speak here. We know who you are and we do not allow anti-Semites to talk in Rockland county." I tried to convince him he was acting without justification. When he threatened to use force to keep me from speaking I asked one of the club members to go for the Chief of Police and to bring him back just as quickly as possible.

In the presence of the Spring Valley Chief of Police the leader stated to me "If you try to speak in here there will be trouble." The door opened and another 20 to 30 men in the uniform of the United States Army wearing over-seas caps entered the hall. They immediately went to work emptying the hall by pushing members out through the door. They shouted as they were pushing the members towards the door "The meeting is over. There will be trouble if anyone tries to speak here." The hall was soon cleared of everybody leaving there only the Chief of Police, my wife and myself.

The other incident I want to mention here is the so-called Anna M. Rosenberg affair in 1950. At their personal solicitation as they both stated on the record of the Senate Armed Services Committee, Senator Richard Russell and Senator Lyndon Johnson requested me to obtain for them information about Anna M. Rosenberg's past relations and her former activities and associations with communists. The information I obtained for them raised a doubt in the minds of the Senate Armed Services Committee about her fitness for the office of Assistant Secretary of Defense. The Senate Armed Services had already unanimously confirmed her for that office without a public hearing. Included in the information obtained by me was an affidavit obtained for them from an ex-communist. Thereupon the Senate Armed Services Committee reopened the earlier confirmation of Anna M. Rosenberg's appointment ordering a public hearing to pass again upon her fitness to serve in the office of Assistant Secretary of Defense.

I rushed back to New York City to the underground already in Senator Russell's or Senator Johnson's office had passed the word to the hatemongers' brain-washing apparatus in New York that there was to be a public hearing on Anna M. Rosenberg's fitness for that office based upon the affidavit of an ex-communist. In order to throw dust in the eyes of the public the hatemongers' brain-washing apparatus ordered every newspaper, every radio and television commentator and every media of mass-communications for shaping public opinion controlled by them to scream to high heaven that "Benjamin H. Freedman, violent anti-Semite is in a conspiracy to keep Anna M. Rosenberg out of the Pentagon" and other untrue charges holding me as "an anti-Semite" solely responsible for "this conspiracy" to bar Anna M. Rosenberg from her Pentagon job for religious reasons only.

That was all that the hatemongers' brain-washing apparatus had to do to make sure Anna M. Rosenberg would get the Pentagon job. The sympathy of the nation was with Anna M. Rosenberg as a result of the hatemongers' brain-washing apparatus plea for fair play for this poor victim of a so-called "anti-Semite" conspiracy to keep Anna M. Rosenberg out of the Pentagon job solely on account of her religious faith. The public lost sight of the fact that Senator Russell and Senator Johnson reopened Anna M. Rosenberg's confirmation for the Pentagon job upon an affidavit under oath by the most trusted and the most patriotic ex-communist who had previously been of great assistance in the detection of communist activities in this country. Anna M. Rosenberg had become a sacred cow to the nation. The hatemongers' "anti-Semitism" smear was used to silence further investigation. The reopened hearing on Anna M. Rosenberg's confirmation collapsed and she was confirmed again as if they had planned it that way.

As a result of the nation-wide publicity the hatemongers' brain-washing apparatus gave me I received from persons I had never met hundreds of documents, records, and other evidence of Anna M. Rosenberg's activities and associations with persons of questionable political background. I received enough material to fill a suitcase. When I was called to testify at the reopened public hearing to confirm Anna M. Rosenberg, I was requested to bring this material with me. That suitcase filled with material relevant and pertinent to the confirmation of Anna M. Rosenberg was open in front of me on the table for almost four hours while I was testifying in the committee room. I was not invited to take one piece of that evidence out of the suitcase. For four hours I sat there answering questions about what religious faith I professed, what churches I attended, my relations with the people in the Middle East, my connections with Conde McCinley and *Common Sense*, and countless other matters completely irrelevant to the confirmation proceedings then under consideration by the Senate Armed Services Committee. *Anna M. Rosenberg's pals made me her whipping boy!*

Have the hatemongers anything they find it necessary to conceal? Have the hatemongers been carrying water on both shoulders? Have the hatemongers been camouflaging un-American, non-American and anti-American attitudes and activities with patriotic and religious pretensions? Double-talk by two-faced individuals or organizations endangers the security of this nation and the peace of the world in this modern nuclear age of intercontinental ballistic missiles fitted with hydrogen-bomb war-heads!

UNITED STATES "INTERVENTION" IN LEBANON THE "TRIAL RUN" FOR PALESTINE "INTERVENTION."

President Eisenhower and Secretary of State Dulles declared the United States military "intervention" in Lebanon was in effect the "trial run" of the United States foreign policy outlined by them in person to United Nations delegations then meeting in the Third Emergency Session of United Nations General Assembly.

President Eisenhower and Secretary of State Dulles on that occasion officially went on record "the United States will go to the help of any small nation" when "a legitimate government" requests United States military "intervention" to aid in the defense of its "political independence and territorial integrity."

The United States was first to "recognize" as "a legitimate government" then the May 1948 armed Zionist insurrection in Palestine. Since May 1948 all Zionists in the United States have exerted their maximum political pressure to wangle from the United States its guarantee for military "intervention" to always protect the "political independence and territorial integrity" of their Zionist "regime."

The precedent established by United States military "intervention" in Lebanon slips the Zionist "regime" in Palestine through the "back-door" in 1958 that guarantee it tried but failed to get through the "front-door" ever since 1948.

United States foreign policy in effect now hands a "blank check" to the Zionist "regime" in Palestine in its own discretion to call upon the United States for military "intervention" to guarantee this Zionist "regime" possession of all the territory in Palestine acquired by armed force in 1948 and 1949 with use of an unprovoked and unjustified inhumane violence against defenseless Arab men, women and children in peaceful possession of their homes and other properties there.

Obviously United States military "intervention" in Lebanon was planned by the high-level Zionist echelons in the United States in collusion with associated high-level echelons in the Administration in Washington for that purpose. The pretexts "infiltration" and "indirect aggression" were invented to whitewash unjustified military "intervention" in Lebanon. The pretexts were discredited.

United States military "intervention" in Lebanon establishes a precedent for a similar unjustified United States military "intervention" in Palestine whenever a request is made by "a legitimate government." In May 1948 the United States "recognized" this Zionist "regime" in Palestine as "a legitimate government."

President Eisenhower put his signature on a Joint Resolution of the Congress enacting the "Eisenhower Middle East Doctrine" on March 19, 1957. The terms of the "Eisenhower Middle East Doctrine" limit United States military "intervention" in the Middle East solely to aid the defense against "armed aggression" there by "countries controlled by international communism" and only to that.

Thereupon all the media of mass-communications in the United States owned and controlled by the Zionist hierarchy, the leading newspapers, the television and radio nation-wide networks, the leading weekly magazines, the motion-picture news-reels and the many other equally effective media in the United States also owned and controlled by the Zionist hierarchy, immediately commenced the most unjustified and unwarranted smear-campaign accusing Egypt and Syria, and more recently the United Arab Republic, of being "countries controlled by international communism." The purpose of this smear-campaign was quite obvious to all.

However this unprecedented and unparalleled smear-campaign was a total failure. Investigators were unable to discover a factual basis for any of the many vile and vicious accusations. The facts have proved that Egypt and Syria, and the United Arab Republic are not "countries controlled by international communism."

The complete collapse of its smear-campaign robbed the Zionist "regime" of its last hope to thereby secure United States military "intervention" in Palestine under the "Eisenhower Middle East Doctrine" which thereupon became a "dead duck" solely because this smear-campaign did not accomplish its intended purpose.

(over)

NY 105-23983-1A5 mod

In 1920 the League of Nations "on behalf of all nations in the world" viewed Palestine as an autonomous state. Likewise in 1920 the League of Nations by the same Covenant "on behalf of all nations in the world" also viewed Lebanon, Syria, Iraq, Jordan, Saudi Arabia and Yemen as autonomous states. Now in 1958 Palestine alone of these seven autonomous states in 1920 is not a sovereign independent and autonomous state and a United Nations member like the other six states are now.

The United States quickly "recognized" the May 1948 armed Zionist insurrection in Palestine as "a legitimate government" six minutes after it was "proclaimed" by the 650,000 Zionists transplanted between 1920 and 1948 from eastern Europe into Palestine behind the bayonets of 100,000 British soldiers stationed there solely for that purpose by Zionist-controlled British governments in London in spite of the fact the League of Nations in 1920 made the deal for Great Britain to serve as Palestine's temporary administrator solely to create there quickly by self-determination a Palestine government for the 1920 Palestine population.

In all the 28 years Great Britain administered Palestine Great Britain found itself completely powerless to create that Palestine government due to pressure exerted on the British governments by the Zionist hierarchy in London. The Zionists did everything necessary to prevent creation of a Palestine government then as they had themselves long planned to create their Zionist "regime" there first.

In United Nations on November 29, 1947 the Zionist hierarchy resorted to the most corrupt "power politics" to steam-roller through United Nations a Zionist-authored "resolution" for Palestine "recommending" as its "government" a Zionist scheme by which they planned to embezzle Palestine from its Arab owners if the plot did not fail. But it did fail. The Arabs avoided the trap by ignoring the "recommendation."

A mistaken belief exists that United Nations is vested by its Charter with power to "create" a Zionist "regime" in Palestine by a "resolution" that "recommends" its "creation." That mistaken belief is exploded by official declarations of the Zionist "regime" itself that it was created solely by wars waged against the Arabs.

There will never be permanent peace in the Middle East until the 1,000,000 Arab expellees are returned to their former homes in Palestine. World-peace will be in danger as long as Middle East peace is in danger. Peace in the Middle East will continue in danger as long as the 2,000,000 Zionists in Palestine continue to go on occupying the homes of the 1,000,000 Arab expellees compelled to live in exile.

The 1,000,000 Arab expellees rightfully refuse to be "resettled" anywhere. They demand the return of their homes from which Zionist aggressors drove them using inhumane violence without provocation or justification; and the "withdrawal" of these 2,000,000 Zionists who will be better off anywhere than where they are now.

In the United States today the best informed Zionists are strongly urging in the best interests of the 2,000,000 Zionists originally "resettled" by them in Palestine, their immediate "withdrawal" from Palestine as the first step in the program to "resettle" them in other countries throughout the world where they will be safe and secure, welcomed and wanted, amongst relatives, friends and countrymen facing a future to which they can nevermore look forward in Palestine as things look there.

Zionists in the United States will be very derelict in their duty towards their 2,000,000 co-religionists originally "resettled" by them in Palestine with funds generously supplied by them for that purpose if they now fail to seriously consider the increasing danger from the rising tide of Arab nationalism which now threatens these 2,000,000 Zionists whom Zionists in the United States must not now abandon to their fates in Palestine in view of the different situation which exists there.

Funds continue to pour into the Zionist "regime" in Palestine at the rate of more than \$500,000,000.00 annually. This money is used primarily in preparation for the next Zionist war which now they know they cannot win. This money is wasted. It is more than enough to finance the "withdrawal" of the 2,000,000 Zionists from Palestine and to "resettle" them in other countries. It should be used for that purpose.

United Nations members will not be called upon to pay the cost of the "withdrawal" of the 2,000,000 Zionist from Palestine or to "resettle" them in other countries. Zionists in the United States will gladly pay for the "withdrawal" from Palestine and to again "resettle" them. United Nations \$100,000,000.00 annual expense for Arab relief and military forces in the area will end. United Nations members will not be obliged to pay \$6,000,000,000.00 to 1,000,000 Arabs as their "compensation."

United States military "intervention" in Lebanon and "withdrawal" of United States troops from Lebanon is not as vital to the peace of the world today as the Zionist military "intervention" in Palestine and the immediate "withdrawal" of the 2,000,000 Zionists from Palestine AND the return of the 1,000,000 Arabs to their former homes.

**President Eisenhower seeks consent of Congress for United States Armed Forces to fight Middle East war to protect booty of Zionist's 1948 armed insurrection
MAKES IMPENDING EAST-WEST WORLD-WAR MORE IMMINENT!**

by BENJAMIN H. FREEDMAN

FOUNDER 1946. LEAGUE FOR PEACE WITH JUSTICE IN PALESTINE

The United States Armed Forces will soon again be fighting and dying, this time on the battle-fields throughout the Middle East area, in the not too distant future, in another unnecessary and useless war, at President Eisenhower's Middle Eastern Security Resolution, as it is now called, is approved by both the houses of Congress, and signed by President Eisenhower. It thus becomes the law of the land, in the form in which President Eisenhower submitted it to the Congress, on January 5, 1950, as his Joint Resolution to Congress, H. J. Res. 117.

202 On the basis of the facts which follow/those best-qualified and most competent to judge the inevitable consequences of President Eisenhower's Middle Eastern Security Resolution, are of the unanimous opinion, that in its present form President Eisenhower's Middle Eastern Security Resolution will lead to war in the Middle East Area, in the very near future, between the United States and the Arab Middle East countries. The consequences must prove very disastrous.

203 It is also the considered judgment and the unanimous opinion of those best-qualified and most competent to judge, in the Administration in Washington, in the Congress, in the Pentagon, and among United Nations delegations, that a war of this character in the Middle East will inevitably precipitate the impending all-out and full-scale East-West World War. That evil consequence must be averted.

In the impending all-out and full-scale East-West War, the United States is destined to become the principal target of a potential enemy abundantly supplied with hydrogen bombs, with the means to deliver them in quantities on targets anywhere in the United States at will; from the world's largest fleet of intercontinental strategic jet-bombers, and from the world's only fleet of intercontinental atomic-powered submarines constructed to discharge guided missiles at very distant targets without the necessity of rising to the surface to do so.

In the event of an attack of that character upon the United States, in the foreseeable future, the defense and survival of the United States as a free, independent and sovereign state, will to a greater extent than now realized, depend upon the relationship existing at that time between the United States and the Arab Middle East countries, and the other countries forming the Asian-African group of nations, approximately 80% of the world's total population, about four out of every five human beings on the face of the earth, an overwhelming majority.

FIG. 1. The tremendous manpower, the enormous natural resources and the strategic areas of the world inhabited by the Asia and Africa 80% of the world's total population, will prove the determining factor in deciding the victor in an all-out and full-scale East-West World War. The manpower, the natural resources, and the strategic areas of Asia and Africa inhabited by the Arab Middle East countries will play a very important part in providing this nation with security, and ultimate victory. The United States has only 11% of its 77 required raw materials.

...The sinister intentions, influences, implications and innuendo, concealed within the terms of President Eisenhower's Middle Eastern Security Resolution, as it now reads, must be called to the attention of every public-spirited person in the nation, while there is still time to do something about it. They must not be overlooked or disregarded in the context of recent history in Palestine, and the Middle East area, and the announced aims of the international Zionist leadership, so often openly expressed, concerning Palestine, and the Middle East area.

The astute employment of certain terms in President Eisenhower's Middle Eastern Security Resolution demands careful analysis and consideration. The nation cannot afford to misinterpret the consequences of implementing the term "it shall be deemed necessary" usually the authority of a dictator. The inference that the term "international aggression" cannot be easily concealed. The innuendo of the term "from any nation" is quite apparent. The implication of the term "controlled" suggests many sinister motives. The subtle intensions of the term "international communism," appears to be a trap. The indefinite term "shall expire . . . when the President shall determine . . . that the peace and security . . . are reasonably assured" is also very dangerous in many ways.

IN THE HOUSE OF REPRESENTATIVES

To authorize the President to undertake economic and military cooperation with nations in the general area of the Middle East in order to assist in the strengthening and defense of

- 11 assistance. Furthermore, he is authorized to employ the
12 Armed Forces of the United States as he deems necessary to
13 secure and protect the territorial integrity and political inde-

- 15 such aid against overt armed aggression from any nation
16 controlled by international communists. Provided, That such

- 11 SEC. 5. This joint resolution shall expire when the Pres-
12 ident shall determine that the peace and security of the nations
13 in the general area of the Middle East are reasonably assured
14 by international conditions created by action of the United
15 Nations or otherwise.

THE EMPHASIS HAS BEEN ADDED TO THE FACSIMILE SECTIONS OF THE RESOLUTION INTRODUCED IN THE HOUSE OF REPRESENTATIVES BY PRESIDENT EISENHOWER ON JANUARY 5, 1957. A SIMILAR RESOLUTION WAS ALSO INTRODUCED IN THE SENATE BY PRESIDENT EISENHOWER AT THE SAME TIME. THIS JOINT RESOLUTION IS IDENTIFIED AS THE MIDDLE EASTERN SECURITY RESOLUTION OF PRESIDENT EISENHOWER.

Fact For Fact

The words selected are simple words. The language employed is simple language. But they say one thing and mean something else. The terms referred to above have never been explained to the public by persons or sources free from personal interest in the aims of the international Zionist leadership in Palestine, and the Middle East area, or not associated with the activities in this country on behalf of the Zionist so-called "sovereign state" in Palestine. They call for explanation by persons without multiple loyalties.

The monopolistic control of all media of mass-communications in the United States for shaping public opinion, by the Zionist leadership in the United States, makes it quite simple for Zionist leadership in the United States to brainwash the public on all relevant subjects, in a manner to best serve Zionist interests in Palestine, and the Middle East area. The monopolistic control of all media of mass-communications in the United States, by the Zionist leadership in the United States, leading newspapers and magazines, radio networks, television networks, the motion picture industry and the entertainment field, through outright ownership or by financial domination, or by control of their incomes from advertising revenues, makes it easy for the international Zionist leadership to brainwash the public in any manner they deem most suitable to serve their purpose, without fear of any effective contradiction in the nation's media of mass-communications for shaping public opinion. The opposition to Zionism finds few if any ways to be heard.

The international Zionist leadership is thus able to foster upon the gullible and naive public acceptance of what is without question a Mutual Defense Treaty between the United States and the Zionist so-called "sovereign state" in Palestine, as a Middle Eastern Security Resolution of the United States Congress. But it is verily the law of the land when approved by both houses of Congress. It becomes the law of this land when it is approved by both houses of Congress. President Eisenhower's Middle Eastern Security Resolution, without any hesitation, or any reservation, for what its name implies. The public are entitled to be correctly and completely informed on the subject. They have not been told the dangerous consequences if it is finally approved as now worded.

President Eisenhower's Middle Eastern Security Resolution is an attempt to slip in through the "back door" what public opinion so vigorously opposed last year when the attempt was made to slip the same thing in through the "front door." Strong opposition by the public last year prevented the United States from concluding a similar Mutual Defense Treaty with the Zionist so-called "sovereign state" in Palestine. By whatever other name the international Zionist leadership seek to baptize a Mutual Defense Treaty, President Eisenhower's Middle Eastern Security Resolution, the name the international Zionist leadership already baptize it, is in effect and in fact nothing but a Mutual Defense Treaty between the United States and the Zionist so-called "sovereign state" in Palestine, measured by the criteria which follows here. Nothing whatsoever which can be said to the contrary can possibly alter that fact.

The odds are 1,000,000,000-to-1 that no Arab Middle East country will ever request the United States armed forces to defend an Arab Middle East country against aggression from any source. By the widest stretch of the imagination, it is inconceivable that any Arab Middle East country will request United States armed forces to assist in its defense against any aggression. A person must be extremely naive to imagine that such circumstances are either probable or possible. It will not be out of place to mention here just a few of the valid reasons why this is so. Space will not permit mention here of all such reasons. Space here will neither permit adequate comment upon these many reasons, to certify to their validity, to the fullest extent the abundant amount of available information makes possible.

Firstly, no basis can possibly exist in the foreseeable future even to remotely expect an Arab Middle East country to request United States armed forces to assist in the defense of an Arab Middle East country against another Arab Middle East country, or against all other Arab Middle East countries. United Nations Charter, in Chapter VIII, the chapter on Regional Arrangements, in Article 52, Paragraphs 1, 2, 3, and 4, provides for the maintenance of peace and security by the Arab Middle East countries under the League of Arab States Treaty. The League of Arab States Treaty provides effective and adequate measures for the defense of an Arab Middle East country against aggression by another Arab Middle East country, or aggression by any other country. The United Nations Charter also provides many additional methods to preserve international peace.

A copy of the League of Arab States Treaty was duly filed with United Nations as required. The League of Arab States Treaty was the first Regional Arrangements Treaty filed with United Nations after its formation in 1945. The League of Arab States Treaty provides that an attack upon any member shall be regarded by all members as an attack upon all members of the League of Arab States. The League of Arab States Treaty served as the inspiration and the model for the Regional Arrangements Treaty of the North Atlantic Treaty Organization, commonly referred to now as NATO. The League of Arab States includes Palestine as a full member, and has always so regarded Palestine since the formation of the League of Arab States in 1944. The autonomous state of Palestine was at that time under the temporary administrative direction of Great Britain.

It is more probable, and more possible than when, as or if an Arab Middle East country adopts so-called "international communism" as the foundation for its revised political, economic and social systems, these new and novel political, economic and social innovations will naturally and normally travel across boundary lines into other Arab Middle East countries, without their resort to the use of "overt armed aggression" for that purpose. The rapid spread of so-called "international communism" in recent years to the numerous European and Asian countries was not achieved by "overt armed aggression." In the past 38 years, so-called "international communism" has imposed its ideologies upon the political, economic and social systems of the populations inhabiting almost 50% of the total land area of the world, without the necessity of resorting to "overt armed aggression" for that purpose. Infiltration, and subversion inside the countries themselves, achieved that result for the advocates of so-called "international communism." For all that, not one soldier was sent across a border to fire a shot.

Secondly, only one future possible need can arise where any Arab Middle East country will require United States armed forces for defense against "overt armed aggression." That future possible need will arise in the event United States armed forces are needed again to resist "overt armed aggression" waged against an Arab Middle East country by the Zionist so-called "sovereign state" in Palestine. The recent "overt armed aggression" against Egypt by the Zionist so-called "sovereign state" in Palestine illustrates this possible future requirement for United States armed forces by an Arab Middle East country. That necessity may arise again as suddenly and unexpectedly as the recent attack on Egypt on October 29, 1956. Another sudden attack will not surprise Middle East countries.

In the event of "overt armed aggression" by the Zionist so-called "sovereign state" in Palestine, all Arab Middle East countries feel quite certain that the United States will resort to every possible subterfuge, and resort to all the excuses the United States can conceivably cook-up, to escape their obligation to employ United States armed forces then, against armed forces of the Zionist so-called "sovereign state" in Palestine. All Arab Middle East countries sincerely believe that the United States will never employ United States armed forces against the Zionists so-called "sovereign state" in Palestine under any circumstances, come hell or high-water. The United States will then evade its obligations with the "weasel words" that such an attack by the Zionist so-called "sovereign state" in Palestine against an Arab Middle East country is not "overt armed aggression" against an Arab Middle East country; "from any nation" at that time "controlled" by so-called "international communism." An alibi will not be too hard to cook-up.

It is an undisputed fact, recognized throughout the world, that today the Zionist so-called "sovereign state" in Palestine is "controlled" by the United States, and that it has been "controlled" by the United States for several years. The United States will be in a position to escape its obligations. The United States can use as its alibi the fact that the Zionist so-called "sovereign state" in Palestine is not "controlled" by "international communism." That contention by the United States will truly qualify the Zionist so-called "sovereign state" in Palestine to request and receive United States armed forces for defense against "overt armed aggression." That seems to be their plan under the terms, "from any nation" allegedly "controlled" by so-called "international communism," that are so prejudiced in favor of the Zionist so-called "sovereign state" in Palestine.

The international Zionist leadership in the United States has poured billions of tax-deductible U. S. dollars of their equivalent, into the economy of their Zionist so-called "sovereign state" in recent years, but not to make investments. These many billions of tax-deductible U. S. dollars were intended to prevent the collapse of the economy of the Zionist so-called "sovereign state" in Palestine. The collapse of the private enterprise system, "controlled" by the uninterrupted flow of billions of tax-deductible U. S. dollars into their bottomless economic pit, without any requirement for repayment, will mean the end of the private enterprise system in the Zionist so-called "sovereign state" in Palestine, and the substitution in its place of the Communist economy found in Communist countries.

The Zionist leadership in the United States fears the repercussions upon their co-religionists in the United States if their Zionist so-called "sovereign state" in Palestine becomes another population, so pass into the almost 50% of the world's total population already existing under the communist system. The Zionist leadership in the United States will continue to pour additional billions of tax-deductible U. S. dollars into the economy of their Zionist so-called "sovereign state" in Palestine to prevent communism replacing capitalism as the political, economic and social systems there. The Zionists fear too many persons in the United States will then say, "Well, now you see, I told you so, didn't I? And they surely will!"

The Zionist so-called "sovereign state" in Palestine was planned by some of the world's leading Communists, developed by some of the world's leading Communists and administered by some of the world's leading Communists. Many of the initial customs and institutions of the Zionist so-called "sovereign state" in Palestine are more communist than comparable customs and institutions in the

so-called "sovereign state" in Palestine today than in all the Arab Middle East countries put together. There is a legal Communist Party in the Zionist so-called "sovereign state" in Palestine, with elected members sitting in their legislature. In all Arab Middle East countries Communist parties do not exist because they have always been illegal. Communism never "took root" in the Moslem countries.

The international Zionist leadership in the United States and Europe, who poured billions of tax-deductible U. S. dollars into their so-called "sovereign state" in Palestine, did not do so for religious reasons. They were primarily interested in controlling the greatest concentration of wealth in natural resources to be found in all the world, and also in the vital importance of this strategic area to the diminishing international significance of Great Britain and France in Asia and Africa. They preached the Ten Commandments but did not practice "thou shalt not murder," "thou shalt not steal," "thou shalt not covet," and "thou shalt not bear false witness." The claims of international Zionist leadership are false, fictitious and fraudulent. Research fails to substantiate any of their claims.

The claim of the international Zionist leadership to Palestine as their "homeland" is fraudulent. They never had an ancestor who set a foot in Palestine in all history. Their claim to Palestine as the "Promised Land" of God's "Chosen People" is totally fictitious. Their ancestors were converted in the 7th century A.D. to monotheism from pagan phallic worship and idolatry. Their claim as the "remnants of the Lost Ten Tribes" is totally untrue. Their ancestors were the Khazars who came into Europe from deep in the heart of Asia in the 1st century. Their claim to Palestine based on the "Balfour Declaration" is a fraud of the most dishonest nature. The "Balfour Declaration" was a letter drafted here in Washington by Justice Brandeis and Justice Frankfurter, the two most fanatic Zionists in the history of Zionism, and leaders in international Zionist policy.

Lord Balfour mailed a copy of the letter to Lord Rothschild. In his letter, Lord Balfour did not promise Palestine to the Zionists. Palestine never was Great Britain's. Great Britain could not give it to the Zionists, and did not. Zionist claims that a League of Nations "Mandate" gave Palestine to them is a fiction. The League of Nations recognized Palestine as the autonomous state of the Palestinian Arabs. In the year 1920, the League of Nations actually guaranteed Palestinian Arabs self-determination under free elections in a few years. But, the British remained over 27 years to transplant 600,000 Zionists into Palestine.

The international Zionist leadership gave considerable nation-wide publicity to the untruth that a United Nations "resolution" on November 29, 1947, "created" their so-called "sovereign state" in Palestine. Nothing could be more untrue than that distortion of fact. The United Nations Charter, in Chapter IV states all the "Powers and Functions" of "The General Assembly," in Article 10 and in Article 11[1] and 11[2]. United Nations can only make "recommendations" to members. To make a "recommendation," United Nations formally passes a "resolution." The substance is a "recommendation" but the form is a "resolution." United Nations has no more authority to "partition" Palestine than to "partition" any country.

After the international Zionist leadership poured a minimum of 10 billion dollars into their Zionist so-called "sovereign state," in far less than 10 years time, in tax-deductible U. S. dollars of their equivalent, without any requirement for repayment by the local transplanted population, the population became less communist and more capitalist in their outlook upon life in general, and about their own lives in particular. This prosperity converted a population of worshippers of Karl Marx into a population of worshippers of Lord Rothschild and Bernard M. Baruch and their likes, among their co-religionists. The 10 billion tax-deductible U. S. dollars soon completely alienated their affection for the Soviet

Fact For Fact

Union. They were happy to be "controlled" by the United States as long as a minimum of a billion was received each year, without any requirement for repayment, with no end in sight of tax-deductible U. S. dollars or their equivalents.

The Soviet Union's leaders were greatly disillusioned, disappointed and discouraged to observe in recent years the slow but sure transformation of almost two-million communist-indoctrinated Zionists into full-fledged capitalists. The communist-indoctrinated Zionists in Palestine were transplanted into Palestine between the years 1921 and 1937 from the Soviet Union, and other eastern European countries, controlled or dominated to a large extent by the Soviet Union. The exceptions form only a very small percentage of all the Zionists now there.

Commencing in the year 1917, the Soviet Union's leaders left no stone unturned anywhere in the world to make possible the present Zionist so-called "sovereign state" in Palestine. Between the years 1917 and 1948, the Soviet Union itself, and the Soviet Union's leaders, made available to the international Zionist leadership much of the man-power, the money, the military material and the moral support in other countries, and in United Nations, without which there positively would be no Zionist so-called "sovereign state" in Palestine today.

At all times since 1917, the Soviet Union and Soviet Union leaders, among whom Zionists and their co-religionists formed the great majority, planned a future Zionist so-called "sovereign state" in Palestine that one day would become a satellite of the Soviet Union, thereby, become a bridge-head for Soviet Union penetration into the Mediterranean, warm-water area, and thereby, become a foot-in-the-door for Soviet Union participation in the greatest petroleum reserves in all the world, and in the mineral and chemical deposits in the Dead Sea with an estimated 5,000 billion U. S. dollar value, determined by British scientists.

In or about the year 1939, the Soviet Union verified reports that Great Britain had shortly before that time concluded a secret agreement with the international Zionist leadership in London. The arrangement obligated Great Britain and the international Zionist leadership in all countries of the world to work together secretly to bring into existence a Zionist so-called "sovereign state" in Palestine, which Great Britain would admit as the 7th nation in the British Commonwealth of Nations as soon as any resulting international suspicions were dispelled to make that possible, and without further international repercussions.

Between the years 1939 and 1948, the Soviet Union employed every possible inducement to win international Zionist leadership away from Great Britain, but in vain. Great Britain planned to exclude the Soviet Union from the Middle East, permanently by the strategy of admitting a "capitalist" Zionist so-called "sovereign state" in Palestine as the 7th nation in the British Commonwealth of Nations. The Middle East area contained the most important and the most valuable concentration of natural resources in the world, and controlled the economic trade-routes to the Orient, and to Great Britain's two eastern-hemisphere nations in the British Commonwealth of Nations, Australia and New Zealand, both badly needed.

The vim, vigor and vitality of the Middle East countries so recently emancipated from five centuries of colonialism, created an unexpected third-dimension in the Middle East problems of Great Britain and the Soviet Union. The death of colonialism in the Middle East area gave birth to a third-force which neither Great Britain nor the Soviet Union anticipated. Arab nationalism in the Middle East is now the hard-core of awakened Asian and African populations. The Asian and African population is 80% of the world's total population. Four out of every five human beings on the face of the earth. They regard the interests of Great Britain and the Soviet Union in the Middle East secondary to the interests there of the Arab Middle East countries. They pledged help to preserve that status.

The transformation of the Zionist so-called "sovereign state" in Palestine into a capitalist economy "controlled" completely by the United States, required the Soviet Union to make several modifications in its program for the Middle East. The collapse of the conspiracy against Egyptian territory and sovereignty greatly strengthened the Soviet Union's position in the Middle East area. The Egyptian conspiracy against Egypt was jointly planned to annihilate the existence of the Zionist so-called "sovereign state" in Palestine. It was the preliminary to admitting it shortly as the 7th nation into the British Commonwealth of Nations.

The Soviet Union was not unaware of the purpose of the simultaneous attacks against the territory and the sovereignty of Egypt by Great Britain and France, in collusion with the Zionist so-called "sovereign state" in Palestine. The Soviet Union forthwith capitalized upon the miscalculations of the conspirators. Great Britain and France vetoed efforts by United Nations to terminate the hostilities in Egypt by the invading Zionist army. Great Britain and France, on the contrary, invaded Egypt on a large scale themselves, in the Suez Canal zone, after bombing civilians deep in Egyptian territory, violating human decency in all forms.

The Soviet Union promptly delivered an ultimatum to Great Britain and France. Soviet Russia warned that hydrogen guided-missiles would drop on London and Paris if they did not immediately agree to cease military operations against Egypt. The allegedly atheist Soviet Union supplied the nominally Christian Great Britain and France with a demonstration of the Golden Rule of Jesus Christ. "That which ye would have others do unto you, do you so the same unto them."

Great Britain and France were galvanized into action fearing that the Soviet Union would wipe out London and Paris exactly as they recently wiped out Port Said. Great Britain and France surrendered immediately to the Soviet Union's ultimatum, and not to "world opinion," as Great Britain and France would have the world think.

Thirdly, the monopolistic control by the Zionist leadership in this country of the media of mass-communications for shaping public opinion in the United States, has made it a relatively easy matter for them to brainwash the public that Arab Middle East countries are "controlled" by the Soviet Union. This Zionist irresponsible propaganda and untrue publicity aims to brainwash the public that because a country "controlled" by the Soviet Union necessarily practices "international communism," that every country that practices "international communism" is therefore "controlled" by the Soviet Union, which does not necessarily follow.

The international Zionist leadership used the public to believe Arab Middle East countries are "controlled" by so-called "international communism" for one reason. It is of vital importance to the Zionist so-called "sovereign state" in Palestine to eliminate any possibility that Arab Middle East countries obtain United States armed forces to aid in their defenses if need for it again should arise, against "overt armed aggression" by the Zionist so-called "sovereign state" in Palestine. The Zionist so-called "sovereign state" achieved an important strategic victory by smearing Arab Middle East countries as "controlled" by "international communism." Zionists now need never fight against United States armed forces.

If Arab Middle East countries are smeared as "controlled" by so-called "international communism," the Zionist so-called "sovereign state" in Palestine can demand United States armed forces for defense "against overt armed aggression" by Arab Middle East countries. Zionists claim that they are not "controlled" by so-called "international communism." The Arab Middle East countries cannot request United States armed forces for defense against "overt armed aggression"

by the Zionist so-called "sovereign state" in Palestine if it again becomes necessary. The Zionist so-called "sovereign state" in Palestine is "controlled" by the United States. The Arab Middle East countries therefore cannot claim they need United States armed forces to defend them against "overt armed aggression" allegedly it is not, "from any nation controlled by international communism."

The smear campaign that Arab Middle East countries are "controlled" by so-called "international communism" is based exclusively upon the fact that they are purchasing arms and ammunition from the Soviet Union and other countries "controlled" by the Soviet Union. Until Arab Middle East countries commenced to purchase arms and ammunition from the Soviet Union, and other Communist countries, they were never suspected of being "controlled" by so-called "international communism." If Arab Middle East countries now stop purchasing arms and ammunition from the Soviet Union, and other Communist countries, the "international communism" smear-barrage will stop just as suddenly as it had started.

The international Zionist leadership must keep Arab Middle East countries defenseless. The international Zionist leadership realizes that if the Arab Middle East countries have the per capita military strength of the Zionist so-called "sovereign state" in Palestine, they would have something to fear today. The delivery of arms and ammunition to Arab Middle East countries by the Soviet Union and other Communist countries will soon raise the per capita military strength of Arab Middle East countries to the level of the per capita military strength of the Zionist so-called "sovereign state" in Palestine. It has therefore become necessary for the international Zionist leadership to exert every pressure to prevent that.

The international Zionist leadership prepared against that threat to the existence of their so-called "sovereign state" in Palestine by planning a Mutual Defense Treaty with the United States against Arab Middle East countries. In effect and in fact, President Eisenhower's Middle Eastern Security Resolution is the Mutual Defense Treaty planned by the international Zionist leadership. That is clearly demonstrated by an analysis of the intent rather than the content of the draft resolution now before Congress, verify the "voice" of Jacob but the "hand" of Esau, judging by all criteria for evaluating this dangerous deception.

The Scriptures relate the story of Jacob and Esau. That unholy deception was explained by exposing it was "the voice" of Jacob, but the "hand" was that of Esau. It was the "voice" of President Eisenhower which spoke over the radio and on television on January 3, 1957 but it was the "hand" of the international Zionist leadership in the United States, which wrote the draft of the resolution submitted to the Congress in the name of President Eisenhower. President Eisenhower's voice was the "voice" of Jacob, but the draft of the Middle Eastern Security Resolution was written by none other than the "hand" of Esau.

President Eisenhower seeks greater power than was ever possessed by any dictator in the history of the world, for the express purpose of defending the booty of the Zionists' 1948 armed insurrection in Palestine. In his draft of his Middle Eastern Security Resolution, President Eisenhower asks that the resolution authorize and empower him to employ the greatest armed force in the history of the world "as he deems necessary." But that is not what President Eisenhower said to the entire nation over the radio and on television on January 3, 1957.

On January 3, 1957 President Eisenhower said to the nation, "If, contrary to my hope and expectation, a situation arose which called for the military application of the policy which I ask the Congress to join in its pronouncing, I would, of course, maintain hour-by-hour contact with the Congress if it were in session. And if the Congress were not in session, and if the situation had grave implications, I would at once call the Congress into special session." That is something altogether different than asking the Congress for consent to employ United States armed forces in the Middle Eastern area "as he deems necessary." Those four words give President Eisenhower the power of the "greatest" dictator in all history.

If President Eisenhower's Middle Eastern Security Resolution is approved by both houses of the Congress, and signed by President Eisenhower, it authorizes President Eisenhower to employ the entire United States armed forces on land, on the sea and in the air "as he deems necessary" in the Middle East, without seeking permission or consent of the Congress. No dictator in the history of the world ever controlled as much military power. Why did President Eisenhower omit any reference to "as he deems necessary" from his January 3, 1957 address, but include "as he deems necessary" in the draft of the Middle Eastern Resolution introduced in Congress on January 3, 1957, the very same day, at the very same moment. Could it again be the "voice" of Jacob, but the "hand" of Esau?

Because President Eisenhower is authorized and empowered to employ the entire United States armed forces "as he deems necessary," it follows that President Eisenhower will be the only one to decide many things. President Eisenhower will have sole responsibility for deciding when any nation is "controlled" by "international communism." President Eisenhower will have sole responsibility for deciding what constitutes "controlled" under the resolution and under international law. President Eisenhower will have the sole responsibility for deciding what "international communism" is, with a small "c." President Eisenhower will have sole responsibility for deciding whether "from any nation" means just the same as "by any nation." Will he ask Zionist leaders as before?

Who will advise President Eisenhower whether a country is "controlled" by anybody or anything outside its boundaries? Is not every country in some manner "controlled" by ideologies which are adopted, and which are not the evolution of the indigenous population? The world knows that certain European and Asian countries are actually "controlled" by the Soviet Union, in a manner and to an extent difficult to determine, but nevertheless "controlled" in a certain sense of that word. But does purchasing arms and ammunition specifically mean that Middle East countries are "controlled" by Communist countries because they purchase arms and ammunition from these countries? Will that be the only criterion?

Who will advise President Eisenhower what "international communism" is? It is well known that ideological "communism" with a small "c" is not the same as "Communism" with a capital "C." There are many countries in which "communism" is practiced which are not "Communist" countries. The New York Sunday Times reprinted President Eisenhower's draft of the Middle Eastern Security Resolution, in which they spell "Communism" with a capital "C," whereas the official printed copy printed by the government spells "communism" with a small "c." The New York Times never printed a correction. Why should President Eisenhower have the authority to employ United States armed forces in the Middle East "as he deems necessary" based solely upon President Eisenhower's understanding of the term "international communism"? There should be a better method than that, or it should be the responsibility of the Congress to answer the questions upon which in this crisis the fate of the nation may soon depend.

What is meant in President Eisenhower's Middle Eastern Security Resolution by "from any nation"? Did the "voice" of Jacob say "by any nation" and the "hand" of Esau write "from any nation"? They have meanings as different as

Fact For Fact

black differs from white. If President Eisenhower's Middle Eastern Security Resolution was intended to apply against the actual acts of sovereign states, it should properly use the term, by any nation, and not from any nation. The use of the term "from any nation" is a booby-trap. President Eisenhower and both houses of the Congress will become casualties of this booby-trap. If they approve the Middle Eastern Security Resolution in the form it was introduced.

An official act of a sovereign state is described as an act "by any nation," and not "from any nation." President Eisenhower stated the United States foreign policy in Palestine, and the Middle East area, over the radio and on television, on January 3, 1957. His "agonizing reappraisal" of United States foreign policy in Palestine, and the Middle East area, impudently opposed to overt armed aggression, there being by the Soviet Union, secondarily by countries directly "controlled" by the Soviet Union which also have Communist governments, and thirdly by countries allegedly "controlled" by the Soviet Union but which do not have Communist governments as measured by the known standards now in use here.

The substitution of "from any nation" instead of "by any nation" was not the accidental choice of the wrong word. The substitution was planned that way. The purpose is to apparently say one thing, but to actually mean something else. The substitution means that United States armed forces must fight in Palestine, and the Middle East area. The Zionist so-called "sovereign state" in Palestine will demand United States armed forces to fight expelled Palestinian Arabs seeking to recover their homes. The use of arms by the expelled Palestinian Arab exiles will be regarded as "overt armed aggression," in this case "from any nation," not "by any nation," and an official act of an Arab sovereign state.

Will United States armed forces be sent by President Eisenhower to fight in Palestine, against the returning expelled Palestinian Arabs, in an attempt to recover their homes from the Zionists in Palestine who stole them? Is President Eisenhower's Middle Eastern Security Resolution a Mutual Security Treaty between the United States and the Zionist so-called "sovereign state" in Palestine for that purpose? Will the United States armed forces fight in Palestine, and the Middle East area, to hinder the return of 1,350,000 expelled Palestinian Arabs to their ancient homeland, and to their own homes, stolen from them by transplanted Zionists? Will the United States call it "overt armed aggression," and "from any nation" if it certainly will not be the official act "by any nation" of an Arab Middle East sovereign country. They will, however, be regarded as guilty of it.

Will it be in the power of President Eisenhower to stigmatize the attempted return of 1,350,000 expelled Palestinian Arabs to their ancient homeland "overt armed aggression." Will he employ United States armed forces to protect the booty of the Zionist 1948 armed aggression, and Zionist "overt armed aggression" since 1948? If the expelled Palestinian Arabs now are living in camps in Egypt, Syria, Jordan and Lebanon, they must necessarily enter Palestine "from any nation," excepting Palestine. The repatriation of the Palestinian Arabs to their ancient homeland, from the Arab Middle East countries where they are now living in destitution, cannot by the widest stretch of anyone's imagination be stigmatized "overt armed aggression," or the official act of the sovereign states of Egypt, Syria, Jordan or Lebanon. The international Zionist leadership is spending countless millions of dollars for untruthful publicity to stigmatize by an Arab Middle East sovereign state, for reasons that have been pointed out.

President Eisenhower is authorized by the Middle Eastern Security Resolution, as it now reads, to exercise this dictatorial power forever, unless President Eisenhower in his own opinion "shall determine that the peace and security of the nations in the general area of the Middle East are reasonably assured by international conditions." What will be the criteria for President Eisenhower's conclusion that the "peace and security" are that which he regards as "reasonably assured"? What does "reasonably assured" mean? It may mean one thing today and another thing tomorrow to President Eisenhower. What will "reasonably assured" mean to President Eisenhower's successors? What will "reasonably assured" mean to another Democratic president like Harry S. Truman, Franklin D. Roosevelt, Woodrow Wilson and other Zionist hooches of the same caliber?

If the power granted to President Eisenhower under the terms of the Middle Eastern Security Resolution, as it now reads, shall expire when the President shall determine, it means that United States armed forces may remain in Palestine, and the Middle East area, for a very long time. The "general area of the Middle East," according to official United States declarations, extends from Turkey to Pakistan. It possibly may be centuries before the "peace and security" of the nations in that "general area of the Middle East," in the sole opinion of a President of the United States, "are reasonably assured," as it seems to appear now.

If President Eisenhower, or his successors, can keep United States armed forces in Palestine, and the Middle East area, until the "peace and security" in these sole opinions, "are reasonably assured" by "international conditions," United States armed forces may remain there forever. What is actually the meaning of "reasonably assured" by "international conditions" if President Eisenhower's Middle Eastern Security Resolution, as it now reads, cedes to "international conditions." Would "international conditions" be Europe, Asia, North or South America or Australia give President Eisenhower, or his successors, the power to keep United States armed forces in Palestine and the Middle East area that long?

In President Eisenhower's January 3, 1957 address over the radio, and on television, President Eisenhower stated, with the "voice" of Jacob, as follows, "If, contrary to my hope and expectation, a situation arose which called for the military application of the policy which I ask the Congress to join me in proclaiming . . . The Middle Eastern Security Resolution, the hand of Esau, is a joint resolution which instead of 'proclaiming,' beyonds the law of the land when approved by both houses of the Congress, and signed by President Eisenhower. It is not a proclamation of United States foreign policy in the Middle East. President Eisenhower spoke with the 'voice of Jacob,' about 'proclaiming' a United States foreign policy in Palestine, and the Middle East, in which he requested the Congress 'to join.' But the 'hand' of Esau wrote the draft resolution which will become the 'law of the land,' and gives President Eisenhower, or his successors, more power than any dictator ever possessed in the history of the world. Who is it who wants President Eisenhower, or his successors, to have the power to employ United States armed forces in Palestine, or the Middle East area? The answer is the international Zionist leadership.

The Arab Middle East countries have little confidence that President Eisenhower's Middle Eastern Security Resolution means what it says, or says what it means. The Arab Middle East countries have washed reason to feel the way they do. The United States did not honor its obligations under its Tripartite Declaration of May 23, 1950. The Arab Middle East countries have learned by

sad experience that the United States Tripartite Declaration of May 23, 1950 did not mean what it said, and did not say what it meant. The Arab Middle East countries can never again be trapped by diplomatic deception of any nature.

The United States Tripartite Declaration of May 23, 1950 stated that the United States, Great Britain and France would "immediately take action" at the frontiers in the Middle East were violated. Between May 23, 1950 and October 29, 1957 the United States often "rattled the sabre" threatening to "immediately take action" against the Arab Middle East countries if they then attacked the Zionist so-called "sovereign state" in Palestine. At every possible opportunity to do so, the United States "rattled the sabre," the Tripartite Declaration of May 23, 1950, to discourage "overt armed aggression" by Arab Middle East countries.

On October 29, 1956 about 100,000 Zionist troops engaged in armed aggression against Egypt. Zionist armed forces violated the borders of Egypt, and penetrated into Egypt as far as the Suez Canal zone. The United States did not "immediately take action" against the Zionist so-called "sovereign state" in Palestine. The United States "rattled the sabre" with the Arab Middle East countries, and with the Asian and African 80% of the world's total population, when it ignored its obligations under the Tripartite Declaration of May 23, 1950. The Arab Middle East countries, and the Asian and African 80% of the world's total population, lost confidence in the political integrity of the United States in matters where the legitimate rights of the Arab Middle East countries come into contact with illegitimate pretensions in Palestine by the international Zionist leadership.

Ignoring their requirement to "immediately take action," Great Britain and France repudiated their obligations under the Tripartite Declaration of May 23, 1950 by attacking Egypt, in collusion with the Zionist so-called "sovereign state" in Palestine. The infamous conspiracy of October 29, 1956 was intended to bring about the military surrender of Egypt, Syria, Jordan and Lebanon to Great Britain and France, associated with the Zionist so-called "sovereign state" in Palestine. Egypt, Syria, Jordan and Lebanon were to be occupied again by the military forces of Great Britain and France, this time joined by the Zionist so-called "sovereign state" in Palestine. That program will still be carried out in that area if the Soviet Union then does not continue its benevolent interest in the security of the Arab Middle East countries, against the unprovoked and unjustified armed aggression by Great Britain, France, and the Zionist so-called "sovereign state" in Palestine. The "benevolent interest" of the Soviet Union in the security of the Arab Middle East countries is supplemented by a terrific "power or persuasion" which President Eisenhower cannot afford to ignore, and no one else should either.

The governments of North Korea, East Germany and the mainland of China were "proclaimed" by population indigenous to those areas for thousands of years. They have been in existence for more than 3 years. The United States has not recognized either one of them. To the United States the governments in North Korea, East Germany and on the mainland of China do not exist any more than the Zionist so-called "sovereign state" in Palestine exists to Egypt, Syria, Jordan, Saudi Arabia, Iraq, Lebanon or Yemen. Things equal to the same thing are equal to each other in mathematical affairs as well as in mathematical problems.

The attitude of Egypt towards the Zionist so-called "sovereign state" in Palestine, regarding the use of the Suez Canal, is identical to the attitude of the United States towards the governments of North Korea, East Germany and the mainland of China regarding the use of the Panama Canal. The Arab Middle East countries have never recognized the existence of the Zionist so-called "sovereign state" in Palestine, and claim they never will. The Arab Middle East countries assert that the Zionist so-called "sovereign state" in Palestine is not a "sovereign state," although recognized as such by the United States or minutes after it was "proclaimed." The Arab Middle East countries continue to regard the Zionist so-called "sovereign state" in Palestine as an armed insurrection which has been temporarily stabilized by an international conspiracy, but cannot endure.

As a consequence of the confiscation of their ancient homeland, and their homes and other worldly possessions, the 1,350,000 Palestinian Arabs, homeless and helpless, innocent men, women and children, were compelled to flee for their lives, and became homeless and penniless outcasts. The ancestors of these 1,350,000 Palestinian Arabs reutilized the soil of Palestine with their sweat and blood for more than 1700 years. They were driven out of their ancient homeland by 600,000 transplanted Zionist revolutionaries, with the help of \$350,000,000.00 in the world's most modern arms and ammunition, supplied to them free of charge, by the international Zionist leadership in the United States, Great Britain and France, and for many years, by the Soviet Union and other Communist countries.

Hypocrites are seeking to arrange a "peace with justice" in Palestine, and the Middle East area, by "returning" the expelled Palestinian Arabs in many foreign countries. The United States has offered to make available to the Zionist so-called "sovereign state" in Palestine the \$3,600,000,000.00 required to compensate the expelled Palestinian Arabs for the reasonable value of their property. The tax-payers in the United States will bear this burden. But the expelled Palestinian Arabs refuse to sell their homes. They wish to return to their ancient homeland, and to again occupy their homes. In their attitude in this respect, the 1,350,000 Palestinian Arabs have the unqualified support of 80,000,000 other Arabs, and the total remainder of the Asian and African 80% of the world's total population, who pledged their full support in the Bandung Conference.

There is only one solution that will bring permanent peace in Palestine, and the Middle East area. The solution demands resettlement at once of the 1,350,000 expelled Palestinian Arabs in their ancient homeland, and the return to them of their homes and other worldly possessions. That is the solution which will bring permanent peace to Palestine, and the Middle East area. That is also the only solution based upon "peace with justice." President Eisenhower repeats again, and again, and again that the solution to the situation in Palestine must be based upon "peace with justice." If he is sincere, he now knows what to do. Beside the dangers inherent in the situation, it will cost the tax-payers of the United States less to now resettle the Palestinian Arabs in their ancient homeland, and resettle the Zionists in Palestine in their former homelands, or in countries where they will be safe and welcome, than to continue as we are now fumbling along. It will prove less expensive for tax-payers in the long run.

It is the duty of the United States to evacuate the Zionist population now in Palestine, and resettle them in their former homelands, or in countries where they will be safe and welcome. Unless the United States embarks upon that program war in the Middle East is inevitable. War in the Middle East will precipitate the impending all-out and full-scale East-West World War. The United States cannot be the victor in that war against the Soviet Union, supported by the Asian and African 80% of the world's total population. Failure of the United States to resettle the 1,350,000 Palestinian Arabs in their ancient homeland, and to resettle the 1,350,000 transplanted Zionists elsewhere than Palestine, will precipitate the impending all-out full-scale East-West World War, as now seems

[redacted] phoned and informed that he had received in the mail that morning, unsolicited, a copy of the paper entitled "Fact for Fact", which paper he thought might be Communistic. [redacted] subsequently forwarded this paper to WFO. The paper was put out by the Foundation for Advanced Research Analysis, 505-5th Avenue, New York City, and was sent to [redacted] in an envelope bearing the return address of BENJAMIN H. FREEDMAN, 960 Park Avenue, New York City.

The paper, which is the January issue, is critical of the EISENHOWER plan in the Middle East. WFO files reflect that BENJAMIN H. FREEDMAN has been quite active in anti-Zionist activities in New York, as well as active in connection with the anti-Semitic paper "Common Sense", and with attacks upon ANNA M. ROSENBERG, former Assistant Secretary of the Department of Defense.

The paper and the envelope received by [redacted] are being furnished herewith to New York for information.

Enclosure to correspondent's letter is the January issue of a 4-page pamphlet entitled "Fact for Fact" (FFF) published by "Foundation for Advanced Research Analysis," (FFARA), 505 Fifth Avenue, New York 17, New York. The tenor of the pamphlet is indicated by the caption "Whose Blood Will Flow Next in Palestine Now Answered! President Eisenhower seeks consent of Congress for United States Armed Forces to fight Middle East war to protect booty of Zionist's 1948 armed insurrection Makes Impending East - West World - War More Imminent."

The New York Office should search office files and contact established reliable sources and security informants re FFF and FFARA.

Results of investigation, under appropriate caption, together with recommendation as to whether additional investigation is warranted, should be promptly furnished the Bureau with reference being made to this communication.

In current letter, correspondent transmitted additional literature received by him from RI. Also, a pamphlet entitled "Fact for Fact" (FFF), published by "Foundation for Advanced Research Analysis" (FFARA), 505 Fifth Avenue, New York 17, New York, which was apparently forwarded to correspondent by Benjamin H. Freedman, 960 Park Avenue, New York 28, New York, who is listed as the author of the article in FFF. The tenor of Freedman's article in FFF is indicated by the caption, "Whose Blood Will Flow Next in Palestine Now Answered! President Eisenhower seeks consent of Congress for United States Armed Forces to fight Middle East war to protect booty of Zionist's 1948 armed insurrection Makes Impending East-West World-War More Imminent."

Bufiles denote Freedman is an unstable and violently anti-Zionist individual.

For information New York, RI is anticommunist, anti-Semitic and pro white race. It appears to be directed by one individual with no membership and its principal activity is the publication of anti-Semitic and pro white race documents. It was the subject of an IS-X investigation, Chicago Office origin.

For information Baltimore and Chicago, FFF has previously been brought to the attention of the Bureau and the New York Office has been requested to search office files and contact established reliable sources and security informants re FFF and FFARA.

Miscellaneous

Rebulet, dated 2/13/57, instructed that the NYO should search office files and contact established, reliable sources and security informants regarding "Fact for Fact" (FFF), and regarding "Foundation for Advanced Research Analysis" (FFARA), and that a recommendation be made to the Bureau as to whether additional investigation is warranted.

Rebulet, 3/4/57, indicated that Bureau files denote that BENJAMIN H. FREEDMAN, 960 Park Avenue, NY 28, NY, who is listed as the author of the article in FFF, is an unstable and violently anti-Zionist individual.

On 2/18/57, there was received in the NYO, through the mail, an envelope bearing the return name and address [redacted] which enclosed another envelope bearing the return address, "BENJAMIN H. FREEDMAN, 960 Park Avenue, New York 28, New York". The second envelope which had been opened prior to its receipt at the NYO, was addressed to [redacted]

b6
b7C

[redacted] and contained a copy of the January, 1957 issue of the publication FFF, which publication indicated on its face that it was published by the FFARA, 505 5th Avenue, NY 17, NY.

The last two mentioned envelopes, together with the copy of the January, 1957 issue of FFF forwarded by [redacted] by mail to the NYO in said envelopes, are being maintained as an exhibit in the file on this case in the NYO. Accordingly, the enclosures forwarded in referenced letters of the WFO, of the Butte Office and of the St. Louis Office to NY have been destroyed.

b6
b7C

It is noted that rebulet dated 2/13/57 indicates that the Bureau is already in possession of the January, 1957 issue of FFF.

The files of the NYO contain no pertinent information identifiable with publication FFF or with the organization FFARA.

The January, 1957 issue of FFF contains only one article, namely an article captioned, "Whose Blood Will Flow Next in Palestine Now Answered", and the article indicates

~~CONFIDENTIAL~~

that the writer is BENJAMIN H. FREEDMAN.

There have been many references to ^{said} BENJAMIN H. FREEDMAN in Bureau files and in particular, attention is drawn to the case entitled, "ALLEGED MEMBERSHIP OF ANNA M. ROSENBERG IN THE JOHN REED CLUB, PERJURY (BUF.126-485). wherein some investigation was conducted concerning BENJAMIN H. FREEDMAN and the latter's financial background.

Information from [redacted] (S)(u) Regarding FFF and FFARA and BENJAMIN H. FREEDMAN

b7D

Further, in (u) regard to BENJAMIN H. FREEDMAN, it is noted that [redacted] (identity to be concealed), who has furnished reliable information in the past, on 12/28/56, advised SA [redacted] that BENJAMIN H. FREEDMAN had, for many years, been friendly with Arab officials in NYC and termed BENJAMIN H. FREEDMAN as a notorious anti-Semite who has been associated with and supported the publication, "Common Sense" for many years.

b6
b7C
b7D

It is noted that "Common Sense", published by the Christian Educational Association of Union, New Jersey, was characterized in a report issued on 12/17/54, by the Committee on Un-American Activities of the United States House of Representatives, as a "hate group" vehicle publishing "some of the most vitriolic hate propaganda ever to come to the attention of the committee".

According to the report, "Common Sense" depicts Communism as "Judaism" and devotes its pages almost exclusively to attacks on the Jewish, and, to a lesser extent, the Negro minorities.

On 2/20/57, [redacted] advised SA JAMES P. MARTIN that he is aware of the publication FFF and advised that so far as this source knows, the January, 1957 issue of FFF has been the only issue published. This source said that inquiry at 505 5th Avenue, NY, NY, had elicited information from [redacted] of that building that the FFARA occupies desk space at that building in one room where several commercial companies also occupy desk space, and that this desk space for FFARA had been rented by [redacted] (phonetic)

This source said that the January, 1957 issue of FFF consists only of one article, namely that by BENJAMIN H. FREEDMAN. In the past, according to this source, FREEDMAN has had his articles printed in the publication, "Common Sense", mentioned above, which is edited by CONDE MC GINLEY [redacted].

b7D

However, according to this source, FREEDMAN had written an article entitled, "Christians Beware", which had appeared in the 10/15/56 issue of "Common Sense". Said article had attacked the movie entitled, "The Ten Commandments", as Jewish and Zionist propaganda, but had done so in a way that was offensive also to many Christians. This source said that thereafter, [redacted].

as "Founder 1946, League for Peace with Justice in Palestine." This publication describes "The most vicious hatemongers in the United States are B'nai B'rith, Anti-defamation League of B'nai B'rith, American Jewish Committee, American Jewish Congress, World Zionist Organization and all their affiliates and subsidiaries."

This publication goes on with FREEDMAN's approach in somewhat of a personal nature to call others hatemongers while seeking to explain his association with CONDE MCGINLEY of Union, New Jersey, editor and publisher of "Common Sense" which FREEDMAN describes as a publication "fighting to protect and preserve our sacred heritages."

Inquiry was made November 6, 1955 of [redacted]

[REDACTED] furnished the following information
on 2/18/59:

He stated that BENJAMIN FREEDMAN maintains an office at 505 5th Ave., for an organization named Foundation for Advanced Research, Inc. He stated that this is a Delaware corporation, which was organized by FREEDMAN several years ago. He stated that it is strictly a one man organization and that FREEDMAN maintains this office only for the purpose of receiving mail and to impress any individuals whom he wishes to interview there. This source stated that the paper "Fact for Fact" has been published on several occasions under the name of this organization, but it is not published on a regular basis and there is no regular literature published by this organization.

He stated that FREEDMAN has been active for many years in various anti-Jewish organizations in NYC and presently supports the organization "Common Sense" in Union, NJ. He stated that FREEDMAN presently has a one million dollar law suit pending against the "New York Daily News" as a result of recent articles in that newspaper concerning the Arab countries connection with so called hate groups in the US in which they referred to FREEDMAN as a "renegade Jew".

It would not appear that FREEDMAN'S organization could be referred to as a "hate group" inasmuch as there is no membership or organization and it consists only of FREEDMAN who is a notorious anti-Semite.

Re Seattle letters to New York, dated 11/17/58 and 12/24/58.

A review of the files of the New York Office reflects the following pertinent information in connection with BENJAMIN H. FREEDMAN and the above-captioned organizations:

On 12/28/56, [redacted] (protect by T symbol), who has furnished reliable information in the past and who received his information from a source he termed reliable, but whose identity he did not wish to disclose, advised SA [redacted] that BENJAMIN H. FREEDMAN had, for many years, been friendly with Arab officials in New York, New York, and the informant termed FREEDMAN as a notorious anti-Semite who has been associated with and supported the publication, "Common Sense", for many years. b7D b6 b7C

It is to be noted that "Common Sense", published by the Christian Educational Association of Union, New Jersey, was characterized in a report issued on 12/17/54, by the Committee on Un-American Activities of the United States House of Representatives, as a "hate group" vehicle publishing "some of the most vitriolic hate propaganda ever to come to the attention of the committee." According to the report, "Common Sense" depicts Communism as "Judaism" and devotes its pages almost exclusively to attacks on the Jewish, and to a lesser extent, the Negro minorities.

On 2/20/57, [redacted] advised SA JAMES P. MARTIN that he was aware of the publication "Fact for Fact", published by the Foundation for Advanced Research Analysis, and further advised that as far as he knew, the January, 1957 issue of "Fact for Fact" was the only issue published up until that time. [redacted] stated that inquiry at 505 Fifth Avenue, New York, New York, had elicited information from [redacted] of that building that the Foundation for Advanced Research Analysis, 505 Fifth Avenue, New York 17, New York, which at that time published "Fact for Fact", occupied desk space in that building in one room where several commercial companies also occupy desk space. [redacted] further advised that BENJAMIN H. FREEDMAN is the individual behind the publication, "Fact for Fact." This informant stated that in the past, FREEDMAN has had his articles printed in the publication "Common Sense", mentioned above. b7D

In connection with CODE NO. 01457, it is to be noted that [redacted]

b7D

By letter dated 3/14/57, the Bureau advised that Bureau files denote that BENJAMIN H. FREEDMAN is an unstable and violently anti-Zionist individual.

b7C
b7D

BENJAMIN H. FREEDMAN still maintains an office at 505 Fifth Avenue, New York, New York, for an organization now known as the Foundation for Advanced Research, Inc., which organization was incorporated in the State of Delaware and was formerly known as the Foundation for Advanced Research Analysis. According to [] this organization, under the latter name, was organized by FREEDMAN some years ago. [] advised that the Foundation for Advanced Research, Inc., is strictly a one man organization and FREEDMAN maintains his Fifth Avenue office only for the purpose of receiving mail and to impress any individuals whom he wishes to interview there. [] further advised that the

b7D

Inasmuch as it does not appear that the above-captioned organization meets the standards of a hate organization, as set forth in Section 122, Manual of Instructions, Volume IV, no further investigation of this organization is being conducted by the New York Office.

It is to be noted that New York file 105-13716 is a main case file on one EDWARDIN FREEDMAN, possibly identical with FREEDMAN, above, and it has been unavailable for review in this matter.
